Protective Instinct ACDs form strong bonds with their primary caregivers They are known to be protective of their families making them excellent watchdogs 3 Intelligence and Trainability Ranked among the most intelligent dog breeds they learn commands quickly and excel in obedience agility and advanced training They need consistent firm but positive training to prevent behavioral issues 4 Compact Size and Hardiness They are medium sized dogs generally weighing between 35 50 pounds making them suitable for both rural and suburban homes provided there is enough space for exercise However they are not ideal for owners looking for a laid back low maintenance companion Without sufficient physical and mental engagement ACDs can develop behavioral problems such as destructive chewing digging or obsessive herding of children pets or vehicles **Report** Australian Royal Commission of Inquiry into Drugs,1980 **Australian Cattle Dog Dog**
