Article IV Consultation*, 2004 **The Netherlands** International Monetary Fund, 1999-07-23 The striking turnaround in the Netherlands economic performance over the past decade and a half has attracted widespread attention Emerging from deep recession and high unemployment in the early 1980s the economy shifted to a pace of growth more rapid than that in neighboring economies and posted a rise in employment close to that in the United States However a number of important problems remain to be tackled to further strengthen economic performance in the Netherlands The material presented in this paper was originally prepared as background for discussions in the IMF Executive Board and takes account of developments through March 1999 **Economic Reforms in Kazakhstan, Kyrgyz Republic, Tajikistan, Turkmenistan, and Uzbekistan** International Monetary Fund, 1999-08-31 This occasional paper provides an overview of the economic reform experiences of the Central Asian states of the former Soviet Union since their independence at the turn of the decade The choice of countries reflects not only a geographical grouping but also similarities in the types of transition challenges faced by these countries notwithstanding considerable variations in their sizes ethnic composition resource endowments and economic structures The paper attempts to identify a
