All You December 2014 True:

Akulmiut Neqait / Fish and Food of the Akulmiut Ann Fienup-Riordan, Marie Meade, Alice Rearden, 2019-08-15

In fall 2014 Calista Education and Culture Inc CEC formerly Calista Elders Council began a four year study funded by the Office of Subsistence Management of the US Fish and Wildlife Service. The study focused on whitefish and other non salmon freshwater fish harvested by residents of the Akulmiut villages of Kasigluk Nunapitchuk and Atmautluak as well as those living along the Kuskokwim River just below Bethel in the villages of Napaskiak Napakiak and Oscarville. Harvest studies have been carried out in some of these communities Ikuta Brown and Koester ed 2014 as well as two major ethnographic studies one in Napaskiak Oswalt 1963 and one in Nunapitchuk Andrews 1989. Our intended focus was not on harvest amounts but rather traditional knowledge surrounding the harvest and use of the six species of whitefish as well as pike burbot and blackfish on which people from this area relied so heavily in the past and continue to harvest to this day. In fact all three contemporary Akulmiut villages as well as settlements in the past were established at sites where fish fences were built across the river each fall to intercept whitefish as they migrated out of the lakes and sloughs toward the mainstem of the Kuskokwim River. If there is one food that defines people from this area it is whitefish. Provided by publisher

Therapist in the Real World Jeffrey A. Kottler, 2015-07-27. Advice and inspiration for the real life challenges of being a mental health professional. Graduate school and professional training for therapists often focus on academic preparation but there's a lot more that a therapist needs to know to be successful after graduation. With warmth, wisdom, and expertise, Jeffrey A. Kottler covers crucial but underaddressed challenges that therapists face in their professional lives at all levels of experience. PART I More Than You Bargained For covers the changing landscape of the mental health profession and the limits and merits of professional training. PART II Secrets and Neglected Challenges explores important issues that are often overlooked during training years, including the ways our clients become our greatest teachers, the power of storytelling, and the role of deception in psychotherapy. And in PART III Ongoing Personal and Professional Development, Kottler focuses on areas in which even the most experienced therapists can continue to hone their talents and maximize their potential, laying out effective tips to navigate organization politics, write and publish books and articles, cultivate creativity in clinical work, maintain a private practice, present and lecture to large and small audiences, sustain passion for the work of helping others, plan for the future, and much more. As honest and inspiring as it is revealing, this book offers therapists and counselors at all levels of experience key ideas for thriving after formal education.
