Allegheny City, 1840-1907 Allegheny City Society, 2007 Allegheny Town was established in 1784 by order of the Supreme Executive Council of Pennsylvania By 1840 the tiny wilderness community had grown in size and population to be incorporated as Allegheny City Throughout the 19th century Allegheny City became home to immigrants from many European countries who found work in the city s expanding commercial and industrial firms as well such prominent Americans as Andrew Carnegie Samuel P Langley Mary Cassatt George Ferris and Mary Roberts Rinehart The citizens of Allegheny City s many neighborhoods took great pride in their city s heritage schools parks and congregations On January 1 1907 Allegheny City was the third largest city in Pennsylvania By the end of that year the city as an autonomous municipality no longer existed as a result of an annexation by Pittsburgh its sister city across the river Allegheny City 1840 1907 documents the short history of this remarkable city **America, History and Life** ,2003 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Allegheny City 1840-1907* Allegheny City Society, 2007-11 Allegheny Town was established in 1784 by order of the Supreme Executive Council of Pennsylvania By 1840 the tiny wilderness community had grown in size and population to be incorporated as Allegheny City Throughout the 19th century Allegheny City became home to immigrants from many European countries who found work in the city s expanding commercial and industrial firms as well such prominent Americans as Andrew Carnegie Samuel P Langley Mary Cassatt George Ferris and Mary Roberts Rinehart The citizens of Allegheny City s many neighborhoods took great pride in their city s heritage schools parks and congregations On January 1 1907 Allegheny City was the third largest city in Pennsylvania By the end of that year the city as an autonomous municipality no longer existed as a result of an annexation by Pittsburgh its sister city across the river Allegheny City 1840 1907 documents the short history of this remarkable city *Writings on American History* ,1986 **Devastation and Renewal** Joel A. Tarr, 2003-11-19 Every city has an environmental story perhaps none so dramatic as Pittsburgh s Founded in a river valley blessed with enormous resources three strong waterways abundant forests rich seams of coal the city experienced a century of exploitation and industrialization that degraded and obscured the natural environment to a horrific degree Pittsburgh came to be known as the Smoky City or as James Parton famously declared in 1866 hell with the lid taken off Then came the storied Renaissance in the years following World War II when the city s public and private elites abetted by technological advances came together to improve the air and renew the built environment Equally dramatic was the sweeping deindustrialization of Pittsburgh in the 1980s when the collapse of the steel industry brought down the smokestacks leaving vast tracks of brownfields and riverfront Today Pittsburgh faces unprecedented opportunities to reverse the environmental degradation of its history In *Devastation and Renewal* scholars of the urban environment post questions that both complicate and enrich this story Working from deep archival research they ask not only what happened to Pittsburgh s environment but why What forces economic political and cultural were at work In exploring

the disturbing history of pollution in Pittsburgh they consider not only the sooty skies but also the poisoned rivers and creeks the mined hills and scarred land Who profited and who paid for such progress How did the environment Pittsburghers live in come to be and how it can be managed for the future In a provocative concluding essay Samuel P Hays explores Pittsburgh s environmental culture the attitudes and institutions that interpret a city s story and work to create change Comparing Pittsburgh to other cities and regions he exposes exaggerations of Pittsburgh s environmental achievement and challenges the community to make real progress for the future A landmark contribution to the emerging field of urban environmental history Devastation and Renewal will be important to all students of cities of cultures and of the natural world Writings
