Awakening With Sanskrit:

Awakening with Sanskrit Katy Poole, Katy Poole Ph D, 2011-08-16 Sanskrit is not an old dead classical language that only accomplished academics can decipher. Instead, it is a living technology of sacred sound for awakening higher states of consciousness, understanding the subtle laws of creation and attaining advanced states of meditation leading to enlightenment. This ground-breaking book by Sanskrit scholar and yogini Katy Poole PhD introduces you to the ancient language of yoga and its role in the development of human potential. You will discover the secret relationship between sound and creation, validated by modern science. You will learn about how the precise pronunciation of the Sanskrit alphabet cultivates the nervous system in preparation for profound meditation. And you will gain insight into Sanskrit's role in the yoga traditions and why it is so important for yoga teachers and students to access this vital part of their practice. Sacred Letters Michael David Sowder, 2025-07-15 Offers letters of the Sanskrit alphabet as key to understanding Yoga and the Divine. These original meditations on the Sanskrit letters range from personal narratives to metaphysical and theological speculations, linguistic play and inter-spiritual allusions to other works and traditions, all relevant to living a contemplative life in the contemporary world. Sowder's book is anchored in the devotional Tantric Aikya tradition, focused on the Divine Feminine, but allusions to Western mystics, Christian, Jewish, Muslim, also appear frequently. No other book like this exists. **Awakening through the Nine Bodies** Phillip Moffitt, 2017-09-05 This beautiful illustrated guide for meditation and yoga students of all spiritual traditions offers subtle and vast teachings on the mystery of the body and mind. Jack Kornfield, author of *No Time Like the Present*, based on meditation practices Phillip Moffitt learned twenty years ago from Himalayan yoga master Sri Swami Balyogi Premvarni. This beautifully illustrated book is a guide to exploring the nature of mind and gaining a better understanding of experiences that arise during meditation. The Nine Bodies teachings map out a journey that starts with consciousness that arises in the physical body and is directly observable and then travels through ever more subtle levels of consciousness to that which is not manifest and is only potential and therefore has to be inferred. The book includes a series of mysterious illustrations that Balyogi created during his time of intense Samadhi explorations. Each illustration is a rich composition of symbols that express aspects of inner experiences that are almost impossible to express with language. Moffitt makes these teachings available for meditation students from all spiritual traditions to use as gateways for exploring the nature of mind and as additional means for tracking and classifying meditative experiences. Students of yoga will also find value in the teachings of the Nine Bodies as they provide a means for contextualizing and connecting with yogic teachings on chakras, koshas, gunas and the Three Bodies. The Indian Review G.A. Natesan, 1927 **Buddhist Phenomenology** Dan Lusthaus, 2014-02-04 A richly complex study of the Yogacara tradition of Buddhism, divided into five parts: the first on Buddhism and phenomenology, the second on the four basic models of Indian Buddhist thought, the third on karma, meditation and epistemology, the fourth on the Trimsika and its translations, and finally the fifth on the Cheng Wei Shih Lun and
