Krammer,Jeroen J.G. van Merriënboer,1992-12-14 In the last decade there have been rapid developments in the field of computer based learning environments A whole new generation of computer based learning environments has appeared requiring new approaches to design and development One main feature of current systems is that they distinguish different knowledge bases that are assumed to be necessary to support learning processes Current computer based learning

environments often require explicit representations of large bodies of knowledge including knowledge of instruction. This book focuses on instructional models as explicit potentially implementable representations of knowledge concerning one or more aspects of instruction. The book has three parts relating to different aspects of the knowledge that should be made explicit in instructional models: knowledge of instructional planning, knowledge of instructional strategies and knowledge of instructional control. The book is based on a NATO Advanced Research Workshop held at the University of Twente, The Netherlands in July 1991.

737 Classic Pilot Handbook Mike Ray, 2011-07-14. Created for the professional Boeing 737 300 500 series airline pilot, this pilot handbook is actually a condensed training manual and is designed to assist the pilot candidate in preparation for the simulator check ride. Written in a style that is both interesting and informative, it is filled with graphics and easy to understand descriptive text. While the material in it is specifically directed at the professional airline pilot, it has proven to also be very popular with flight simmers and other interested aviation aficionados.
