maintaining a healthy body during pregnancy When you discover that you are pregnant you are already in your 10th to 12th week of pregnancy By this time the organs of your baby are forming and the healthy growth of your baby depends on the state of your health then So before you plan to have a baby it is vital to ask yourself whether your body is ready for pregnancy This book outlines 15 important things all pregnant women mothers to be as well as all women of reproductive age need to do if they want to have a safe pregnancy and a healthy baby Not all birth defects can be prevented but a woman who takes good care of herself long before her pregnancy increases her odds of a healthy pregnancy Today having a healthy baby is most of the time more up to us than up to chance
