Air Conditioning Principles Systems Approach:

Air Conditioning Principles and Systems Edward G. Pita, 1981 A classic in its field Air Conditioning Principles and Systems continues to fill the need for a text book on air conditioning systems that combines design principles with real world applications Readers will gain insight into the design operation and troubleshooting of new and existing air conditioning systems Moreover this edition has been updated to reflect recent developments and issues in the industry including the increasing use of the Internet in the field Key features of this edition New weather data for outside temperature analysis and system design Expanded information on environmental problems to help readers stay current on issues and regulations New information about asbestos including answers about mitigation of harmful effects Further exploration on scroll compression and how it works in real world applications Air Conditioning Principles and Systems Edward Pita, 1981-01-01

Decision-Making Models and Applications in Manufacturing Environments Pushpdant Jain, Kumar Abhishek, Prasenjit Chatterjee, 2024-02-20 Multi criteria decision making MCDM has gained vast popularity for its ability to help make decisions in the presence of various similar and conflicting choices This new volume applies the MCDM theory to solving problems and challenges in manufacturing environments It discusses using MCDM computational methods to evaluate and select the most optimal solution or method for real world real time manufacturing engineering issues It details the decision making process in relation materials selection identification assessment and evaluation of risk sustainability assessment selection of green suppliers and more The chapter authors demonstrate the application of myriad MCDM techniques in decision making including MADM multiple attribute decision making DEA data envelopment analysis fuzzy TOPSIS technique for order preference by similarities to ideal solution fuzzy VIKOR multicriteria optimization and compromise solution MOORA multi objective optimization on the basis of ratio analysis EWM entropy weight method AHP analytic hierarchy process TODIM TOMada de Decisao Interativa Multicriterio and others The volume illustrates these MCDM models in several industries and industrial processes including for experimental analysis and optimization of drilling of glass fiber reinforced plastic in the textile industries for selection of refrigerants for domestic applications and others Air Conditioning Principles and Systems Edward G. Pita, Pita, 1981 **Mathematical Models of Thermal Conditions in Buildings** Yuri A.

Tabunschikov, 1992-12-15 Mathematical Models of Thermal Conditions in Buildings provides a comprehensive discussion of the theory and practice of a mathematical simulation method for studying the thermal behavior of rooms and buildings The book features fundamental concepts of the theory of thermal behavior mathematical simulation and applications of the method in solving practical problems Several important topics are discussed basic theoretical concepts of formulating a building s thermal behavior methods and algorithms for simulating standard elements and the building as a whole and practical applications for studying thermal stability during the summer and winter Methodological foundations of formulating a mathematical simulation for computer controlled building thermal behavior are defined The book also examines methods

for determining optimum building dimensions and orientation considering external climatic effects and minimizing energy consumption This important volume by a top Russian energy consumption specialist will be an indispensable addition to the libraries of mechanical engineers civil engineers and HVAC professionals

Air Conditioning Principles And Systems: An Energy Approach 4Th Ed. Pita,2008 **Pure and Applied Science Books, 1876-1982** ,1982 Over 220 000 entries representing some 56 000 Library of Congress subject headings Covers all disciplines of science and technology e g engineering agriculture and domestic arts Also contains at least 5000 titles published before 1876 Has many applications in libraries information centers and other organizations concerned with scientific and technological literature Subject index contains main listing of entries Each entry gives cataloging as prepared by the Library of Congress Author title indexes
