We're bringing you all 11 issues of this title individually and as a three volume collection. Get the full catalog by contacting classicslibrary@yahoo.com *The Complete Air Wonder Stories: Volume 1* Stellar Publishing,2018-04-22 In July 1929 Hugo Gernsback published the first issue of AIR WONDER STORIES one of three magazines he started after he lost control of the original Amazing Stories. The Fantastic Other Brett Cooke, Jaume Marti-Olivella, George Edgar Slusser, 1998 The Fantastic Other is a carefully assembled collection of essays on the increasingly significant question of alterity in modern fantasy the ways in which the understanding and construction of the Other shapes both our art and our imagination The collection takes a unique perspective seeing alterity not merely as a social issue but as a biological one Our fifteen essays cover the problems posed by the Other which after all go well beyond the bounds of any single critical perspective With this in mind we have selected studies to show how insights from deconstruction Marxism feminism and Freudian Jungian and evolutionary psychology help us understand an issue so central to the act of reading

[Performing Brains on Screen](#) Fernando Vidal, 2025-10-01 Performing Brains on Screen deals with film enactments and representations of the belief that human beings are essentially their brains a belief that embodies one of the most influential modern ways of understanding the human Films have performed brains in two chief ways by turning physical brains into protagonists as in the brain movies of the 1950s which show terrestrial or extra terrestrial disembodied brains

carrying out their evil intentions or by giving brains that remain unseen inside someone's head an explicitly major role as in brain transplantation films or their successors since the 1980s in which brain contents are transferred and manipulated by means of information technology Through an analysis of filmic genres and particular movies *Performing Brains on Screen* documents this neglected filmic universe and demonstrates how the cinema has functioned as a cultural space where a core notion of the contemporary world has been rehearsed and problematized *Science Fiction, Fantasy, and Weird Fiction Magazines* Marshall B.
