## **American Political History A Very Short Introduction Very Short Introductions:**

American Political History Donald T. Critchlow,2015-01-14 American Political History A Very Short Introduction captures the richness of American political history focusing primarily on national politics It explores the nature of the two party system key turning points in American political history representative presidential and congressional elections struggles to expand the electorate and critical social protest and third party movements The volume emphasizes the continuity of a liberal tradition challenged by partisan divide war and periodic economic turmoil

American History Paul S. Boyer,2012-08-16 This volume in Oxford's A Very Short Introduction series offers a concise readable narrative of the vast span of American history from the earliest human migrations to the early twenty first century when the United States loomed as a global power and comprised a complex multi cultural society of more than 300 million people The narrative is organized around major interpretive themes with facts and dates introduced as needed to illustrate these themes The emphasis throughout is on clarity and accessibility to the interested non specialist

American Politics: A Very Short Introduction Richard M. Valely,2013-03-28 This concise volume fills a long standing need for a sophisticated brief primer on American national politics A major theme of the book is the interplay between constitutional and extra constitutional institutions and political processes It provides engaging and exceptionally instructive treatments of the nuts and bolts of how American politics works and of the strengths of American democracy while candidly considering gaps in representation and the issue of increasing income inequality

The History of Political Thought Richard Whatmore,2021-11-25 Thinking about politics has tended to be historical in nature because of the comparisons and contrasts that can be drawn between past and present Different periods in politics have used the past differently At times political thought can be said to have been drawn directly from the study of history at others perhaps including our own time the relationship is more indirect This Very Short Introduction explores the core concerns and questions in the field of the history of political thought Richard Whatmore considers the history of political thought as a branch of political philosophy political science and examines the approaches of core theorists such as Reinhart Koselleck Strauss Michel Foucault and the so called Cambridge School of Quentin Skinner and John Pocock Assessing the current relationship between political history theory and action Whatmore concludes with an analysis of its relevance for current politics

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

**American Foreign Relations: A Very Short Introduction** Andrew Preston,2019-04-01 For better or worse be it militarily politically economically technologically or culturally Americans have had a profound role in shaping the wider world beyond them The United States has been a savior to some a curse to others but either way such views are often based on a caricature of American actions and intentions American Foreign Relations then is a subject of

immense global importance that provokes strong emotions and much debate but often based on deep misunderstanding This Very Short Introduction analyzes the key episodes themes and individuals in the history of American foreign relations While discussing diplomacy and the periods of war that have shaped national and international history it also addresses such topics as industrialization globalization imperialism and immigration Covering the Revolution through the War on Terror it examines the connections between domestic politics and foreign affairs as well as the importance of ideals and values Sharply written and highly readable American Foreign Relations offers a clear eyed narrative of America s role in the world and how it has evolved over time **ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [History: A Very Short Introduction](#) John Arnold,2000-02-24 Starting with an examination of how historians work this Very Short Introduction aims to explore history in a general pithy and accessible manner rather than to delve into specific periods , [Modern Japan: A Very Short Introduction](#) Christopher

Goto-Jones,2009-04-23 Japan remains something of an enigma to many a confusing montage of the alien and the familiar This Very Short Introduction explodes the myths and explores the reality of modern Japan offering a concise engaging and accessible look at the history economy politics and culture of this fascinating nation It examines what the term modern means to the Japanese debunks the notion that Japan went through a period of total isolation from the world and explores the continuity between pre and post war Japan **Introduction ;Introducing Assyria ;Assyrian places ;Assyrians at home ;Assyrians abroad ;Foreigners in Assyria ;Assyrian world domination ;Chronology ;Glossary ;References ;Further reading ;Index** Karen Radner,2015 From city state to empire in the early 2nd millennium BC to the end of the 7th century BC Assyria was one of the most influential kingdoms of the Ancient Near East Using archaeological discoveries from across the Middle East Karen Radner demonstrates the vast socially diverse multicultural nature of Ancient Assyria and the Assyrian Empire [Diplomatic History](#) Joseph M. Siracusa,2021-07-06 Diplomatic history explores the management of relations

between nation states by the process of negotiations From the diplomacy of the American Revolution the diplomatic origins of the Great War and its aftermath Versailles and the personal summity behind the night Stalin and Churchill Divided Europe to George W Bush and the Iraq War and diplomacy in the age of globalization the management of power relationships has had an immense impact on our recent history This Very Short Introduction updates the former Diplomacy A Very Short Introduction and illustrates international diplomacy in action exploring the changes in method at key historical junctures and highlighting the very different demands that circumstances make on the practice of diplomats Drawing on the case studies above it makes sense of the way in which skilful diplomacy as well as hubris rashness and excessive caution can have important ramifications for the fate of nations Based on the experiences of diplomatic history it also locates the universal role

of negotiations and identifies the key elements of success As Joseph M Siracusa shows diplomacy was and is an indispensable element of statecraft and without skilful diplomacy political success may remain elusive Very Short Introductions Brilliant Sharp Inspiring ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable [The U.S. Civil War: A Very Short Introduction](#) Louis P. Masur, 2020-10-01 More than one hundred and fifty years after the first shots were fired on Fort Sumter the Civil War still captures the American imagination and its reverberations can still be felt throughout America's social and political landscape Louis P. Masur's *The U.S. Civil War: A Very Short Introduction* offers a masterful and eminently readable overview of the war's multiple causes and catastrophic effects. Masur begins by examining the complex origins of the war focusing on the pulsating tensions over states rights and slavery. The book then proceeds to cover year by year the major political social and military events highlighting two important themes: how the war shifted from a limited conflict to restore the Union to an all out war that would fundamentally transform Southern society and the process by which the war ultimately became a battle to abolish slavery. Masur explains how the war turned what had been a loose collection of fiercely independent states into a nation remaking its political cultural and social institutions. But he also focuses on the soldiers themselves both Union and Confederate whose stories constitute nothing less than America's *Iliad*. In the final chapter Masur considers the aftermath of the South's surrender at Appomattox and the clash over the policies of reconstruction that continued to divide President and Congress conservatives and radicals Southerners and Northerners for years to come. In 1873 Mark Twain and Charles Dudley wrote that the war had wrought so profoundly upon the entire national character that the influence cannot be measured short of two or three generations. This concise history of the entire Civil War era offers an invaluable introduction to the dramatic events whose effects are still felt today.

**Topology** Richard Earl, 2020-01-11 How is a subway map different from other maps? What makes a knot knotted? What makes the Möbius strip one-sided? These are questions of topology, the mathematical study of properties preserved by twisting or stretching objects. In the 20th century topology became as broad and fundamental as algebra and geometry, with important implications for science especially physics. In this *Very Short Introduction* Richard Earl gives a sense of the more visual elements of topology looking at surfaces as well as covering the formal definition of continuity. Considering some of the eye-opening examples that led mathematicians to recognize a need for studying topology, he pays homage to the historical people, problems and surprises that have propelled the growth of this field. ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. [\*\*Dante:divine Comedy V1 Inferno\*\*](#) P. Dante

Alighieri, 1996 This new translation presents the Italian text of the Inferno and on facing pages Robert Durling's new prose translation which brings a new power and accuracy to the rendering of Dante's extraordinary vision of Hell with all its terror, pathos and sardonic humor and its penetrating analyses of the psychology of sin and the ills that plague society. Readers will prize the directness and clarity, the rich expressiveness and the rigorous accuracy of this contemporary prose translation which preserves to an unparalleled degree the order and emphases of Dante's syntax unhampered by any constraints of meter or rhyme. The Italian text has been newly edited with a view to the needs of American and English readers. Martinez and Durling's Introduction and Notes are designed with the first time reader of the poem in mind but will be useful to others as well. The concise Introduction presents essential biographical and historical background and a discussion of the form of the poem. The Notes are more extensive than those in most translations currently available and they contain much new material. In addition sixteen short essays explore the autobiographical dimension of the poem, the problematic body analogy, the question of Christ's presence in Hell and individual cantos that have been the subject of controversy including those on homosexuality. There is an extensive bibliography and the indexes to foreign words, passages cited, proper names in the Notes and proper names in the text will make the volume particularly useful. Robert Turner's illustrations include detailed maps of Italy, clearly labeled diagrams of the cosmos and of the structure of Hell and line drawings of objects and places mentioned in the poem.

**His Truth Is Marching On** Jon Meacham, 2020-08-25 1 NEW YORK TIMES BESTSELLER An intimate and revealing portrait of civil rights icon and longtime U.S. congressman John Lewis linking his life to the painful quest for justice in America from the 1950s to the present from the Pulitzer Prize winning author of *The Soul of America*. An extraordinary man who deserves our everlasting admiration and gratitude. *The Washington Post* ONE OF THE WASHINGTON POST AND COSMOPOLITAN'S BEST BOOKS OF THE YEAR John Lewis who at age twenty five marched in Selma, Alabama and was beaten on the Edmund Pettus Bridge was a visionary and a man of faith. Drawing on decades of wide ranging interviews with Lewis, Jon Meacham writes of how this great grandson of a slave and son of an Alabama tenant farmer was inspired by the Bible and his teachers in nonviolence Reverend James Lawson and Martin Luther King Jr to put his life on the line in the service of what Abraham Lincoln called the better angels of our nature. From an early age Lewis learned that nonviolence was not only a tactic but a philosophy, a biblical imperative and a transforming reality. At the age of four Lewis ambitious to become a minister practiced by preaching to his family's chickens. When his mother cooked one of the chickens the boy refused to eat it his first act he wryly recalled of nonviolent protest. Integral to Lewis's commitment to bettering the nation was his faith in humanity and in God and an unshakable belief in the power of hope. Meacham calls Lewis as important to the founding of a modern and multiethnic twentieth and twenty first century America as Thomas Jefferson and James Madison and Samuel Adams were to the initial creation of the Republic itself in the eighteenth century. A believer in the injunction that one should love one's neighbor as oneself Lewis was arguably a saint in our time risking limb and life to bear witness for the

powerless in the face of the powerful In many ways he brought a still evolving nation closer to realizing its ideals and his story offers inspiration and illumination for Americans today who are working for social and political change **Ancient Greece** Paul Cartledge,2009-10-22 The contribution of the Ancient Greeks to modern western culture is incalculable In the worlds of art architecture myth literature and philosophy the world we live in would be unrecognizably different without the formative influence of Ancient Greek models Ancient Greek civilization was defined by the city in Greek the polis from which we derive politics It is above all this feature of Greek civilization that has formed its most enduring legacy spawning such key terms as aristocracy oligarchy tyranny and last but by no means least democracy This highly stimulating introduction to Ancient Greece takes the polis as its starting point Paul Cartledge uses the history of eleven major Greek cities to illuminate the most important and informative themes in Ancient Greek history from the first documented use of the Greek language around 1400 BCE through the glories of the Classical and Hellenistic periods to the foundation of the Byzantine empire in around CE 330 Covering everything from politics trade and travel to slavery gender religion and philosophy it provides the ideal concise introduction to the history and culture of this remarkable civilization that helped give birth to the world as we know it

**Preface: Why Shakespeare? ;Shakespeare and Stratford-upon-Avon ;Theatre in Shakespeare's time ;Shakespeare in London ;Plays of the 1590s ;Shakespeare and comic form ;Return to tragedy ;The classical plays ;Tragi-comedy ;Epilogue ;Chronology: Shakespeare's works ;Further reading ;Index** Stanley Wells,2015

In this new offering from Stanley Wells comes an exploration of one of the world s greatest dramatists William Shakespeare Written with enthusiasm and flair Wells looks at both the world Shakespeare lived in and all of his major works to show how and why he continues to be so influential and important to society today **Democrat and Diplomat** Robert Dallek,2012-09-28 Acclaimed author and historian Robert Dallek s insightful biography of William Dodd the U S Ambassador to Germany during the ascension of Hitler and the Nazi party exposes the dark underbelly of 1930s Germany and the terrible burden of those who realized the horror that was to come

**The U.S. Constitution** David J. Bodenhamer,2018-03-15 The U S Constitution A Very Short Introduction explores the major themes of American constitutional history federalism the balance of powers property representation equality and security and illustrates how the Constitution has served as a dynamic framework for legitimating power and advancing liberty **The American Presidency** Charles O. Jones,2007-10-11 The expansion of executive powers amid the war on terrorism has brought the presidency to the center of heated public debate Now in The American Presidency presidential authority Charles O Jones

provides invaluable background to the current controversy in a compact reliable guide to the office of the chief executive. This marvelously concise survey is packed with information about the presidency some of it quite surprising. We learn for example that the Founders adopted the word president over governor and other alternatives because it suggested a light hand as in one who presides rather than rules. Indeed the Constitutional Convention first agreed to a weak chief executive elected by congress for one seven year term later calling for independent election and separation of powers. Jones sheds much light on how assertive leaders such as Andrew Jackson, Theodore Roosevelt and FDR enhanced the power of the presidency and illuminating how such factors as philosophy, Reagan's anti-Communist conservatism, the legacy of previous presidencies, Jimmy Carter following Watergate, relations with Congress and the impact of outside events have all influenced presidential authority. He also explores the rise of federal power and the dramatic expansion of federal agencies showing how the president takes a direct hand in this vast bureaucracy and he examines the political process of selecting presidents from the days of deadlocked conventions to the rise of the primary after World War II. In 200 years he writes the presidency had changed from that of a person Washington followed by Adams then Jefferson to a presidential enterprise with a cast of thousands. Jones explains how this remarkable expansion has occurred and where it may lead in the future.

**ABOUT THE SERIES** The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas and enthusiasm to make interesting and challenging topics highly readable.

## **American Political History A Very Short Introduction Very Short Introductions** Book Review: Unveiling the Power of Words
