[The State of Post-Cinema](#) Malte Hagener, Vinzenz Hediger, Alena Strohmaier, 2016-11-30 This book approaches the topic of the state of post cinema from a new direction. The authors explore how film has left the cinema as a fixed site and institution and now appears ubiquitous in the museum and on the street, on planes and cars, and new digital communication platforms of various kinds. The authors investigate how film has become more than cinema, no longer a medium that is based on the photochemical recording and replay of movement. Most often the state of post cinema is conceptualized from the high end of the most advanced technology; discussions focus on performance capture and digital 3D 4K projection and industrial light magic. Here the authors approach is focused on the low end circulation of filmic images. This includes informal networks of exchange and transaction such as p2p networks, video platforms, and so-called piracy, with a special focus on the Middle East and North Africa where political and social transformations have created new forms of circulation and presentation, particularly visible.

**Yachting**, 2007-09 *iMuslims* Gary R. Bunt, 2009-04-30 Exploring the increasing impact of the Internet on Muslims around the world, this book sheds new light on the nature of contemporary Islamic discourse, identity, and community. The Internet has profoundly shaped how both Muslims and non-Muslims perceive Islam and how Islamic societies and networks are evolving and shifting in the twenty-first century, says Gary Bunt. While Islamic society has deep historical patterns of global exchange,

the Internet has transformed how many Muslims practice the duties and rituals of Islam A place of religious instruction may exist solely in the virtual world for example or a community may gather only online Drawing on more than a decade of online research Bunt shows how social networking sites blogs and other cyber Islamic environments have exposed Muslims to new influences outside the traditional spheres of Islamic knowledge and authority Furthermore the Internet has dramatically influenced forms of Islamic activism and radicalization including jihad oriented campaigns by networks such as al Qaeda By surveying the broad spectrum of approaches used to present dimensions of Islamic social spiritual and political life on the Internet iMuslims encourages diverse understandings of online Islam and of Islam generally *Fatal Grievances* Gregory M.
