## **American Sniper Japan:**

**Sniping Rifles in the War Against Japan 1941-45** John Walter, 2024-02-15 Fully illustrated this absorbing study explores the evolving sniping technology and tactics employed by both sides in Asia and the Pacific during 1941-45. During World War II both the Japanese and their Allied opponents made widespread use of snipers armed with a variety of rifles, scopes and accessories and prepared by widely differing levels of training and tactical doctrine. The challenges of fighting in a variety of harsh environments from the Pacific islands to the vast expanses of China prompted improvisation and innovation on both sides in the ongoing war between snipers and their adversaries. Often operating at relatively close ranges in restrictive terrain, snipers made particularly ingenious use of camouflage and deception as the fighting spread across Asia and the Pacific in the wake of the Pearl Harbor attack while troops tasked with countering enemy marksmen had to learn the hard way how best to defeat a seemingly invisible enemy. Small arms expert John Walter considers the strengths and limitations of the rifles, scopes and accessories deployed by Japanese snipers and their Allied counterparts as well as their different approaches to sniping tactics and training. Specially commissioned artwork and carefully chosen photographs illustrate this enthralling study of the sniping war in Asia and the Pacific during World War II. **Directory of World**

**Cinema: Japan 3** John Berra, 2015-01-01 Like its predecessors *Directory of World Cinema: Japan 3* endeavours to move scholarly criticism of Japanese film out of the academy and into the hands of cinephiles the world over. This volume will be warmly welcomed by those with an interest in Japanese cinema that extends beyond its established names to equally remarkable filmmakers who have yet to receive such rigorous attention. *Surviving a Japanese Internment Camp* Rupert Wilkinson, 2013-12-03 During World War II the Japanese imprisoned more American civilians at Manila's Santo Tomas prison camp than anywhere else along with British and other nationalities. Placing the camp's story in the wider history of the Pacific war, this book tells how the camp went through a drastic change from good conditions in the early days to impending mass starvation before its dramatic rescue by U.S. Army flying columns. Interned as a small boy with his mother and older sister, the author shows the many ways in which the camp's internees handled imprisonment and their liberation afterwards. Using a wealth of Santo Tomas memoirs and diaries plus interviews with other ex-internees and veteran army liberators, he reveals how children reinvented their own society while adults coped with crowded dormitories, evaded sex restrictions, smuggled in food and through a strong internee government dealt with their Japanese overlords. The text explores the attitudes and behavior of Japanese officials ranging from sadistic cruelty to humane cooperation and asks philosophical questions about atrocity and moral responsibility. **Inside the Crosshairs** Col. Michael Lee Lanning, 2013-06-19

The American sniper could be regarded as the greatest all-around rifleman the world has ever known. At the start of the war in Vietnam, the United States had no snipers; by the end of the war, Marine and army precision marksmen had killed more than 10,000 NVA and VC soldiers, the equivalent of an entire division at the cost of under 20,000 bullets, proving that long range

shooters still had a place in the battlefield Now noted military historian Michael Lee Lanning shows how U S snipers in Vietnam combining modern technology in weapons ammunition and telescopes used the experience and traditions of centuries of expert shooters to perfect their craft To provide insight into the use of American snipers in Vietnam Lanning interviewed men with combat trigger time as well as their instructors the founders of the Marine and U S Army sniper programs and the generals to whom they reported Backed by hard information and firsthand accounts the author demonstrates how the skills these one shot killers honed in the jungles of Vietnam provided an indelible legacy that helped save American lives in Grenada the Gulf War and Somalia and continues to this day with American troops in Bosnia

**American Sniper** Chris Kyle,2015-02 Japanese edition of American Sniper The Autobiography of the Most Lethal Sniper in U S Military History Chris Kyles down to earth memoir of being a sniper during the Iraq War and the horrors he and his comrades faced The movie starring Bradley Cooper is nominated for the 2015 Oscar for Best Picture and Best Actor In Japanese Annotation copyright Tsai Fong Books Inc Distributed by Tsai Fong Books Inc

**The Liberation of Manila** John A. Del Gallego,2020-07-17 During the early months of World War II Winston Churchill maneuvered to get the U S involved in the war to save his country from German invasion Roosevelt scheming to lure Hitler into a casus belli ensnared Japan instead resulting in the attack on Pearl Harbor and the Pacific War that followed When the doomed U S garrison in the Philippines soon capitulated to the Japanese the atrocities inflicted on the Filipino and American units that surrendered were portents for the inhabitants of Manila The history chronicles the 1945 recapture of Manila largely from the perspective of the civilian population which suffered horrific brutality from the Japanese followed by destruction and heavy loss of life during the American assault Individual stories are included of citizens caught in the crossfire between the tenacious Japanese defenders and American troops determined to seize the capital city while minimizing their own casualties regardless of the cost in civilian lives More than 175 photographs document the events described

**U.S. Marine Corps Scout-sniper** Peter R. Senich,1993 The advent of jungle warfare in the South Pacific in 1942 opened an entirely new chapter in the art of fieldcraft and markanship for the U S Marine Corps To eliminate the Japanese jungle fighter the Corps had to formulate innovative tactics even more efficient than those successfully implemented by the scouts observers and snipers of World War I The Corps set about training and fielding a new breed of combat specialist the U S Marine Corps scout sniper Now after more than two decades of research Peter Senich has written what is undoubtedly the most thorough and accurate account ever of the training equipment and combat experiences of this important facet of the history of Marine Corps sniping Contains rare combat and training photos of scout snipers in action

provides a vivid portrait of the American soldier or G I in World War II from his registration in the draft training in boot camp combat in Europe and the Pacific and to his final role as conqueror and occupier It is all here the greetings from Uncle Sam endless lines in induction centers across the country the unfamiliar and demanding world of the training camp with its concomitant jokes pranks traditions and taboos and the comparative largess with which the Army was outfitted and supplied Here we witness the G I facing combat the courage the heroism the fear and perhaps above all the camaraderie the bonds of those who survived the tragic sense of loss when a comrade died Finally when the war was over the G I s frequently experienced clumsy hilarious and explosive interactions with their civilian allies and with the former enemies whose countries they now occupied Publisher **American Rifleman** ,1944 Two Steps to Tokyo Gordon George Powell,1946
