American Cinema of the 2010s Dennis Bingham, 2021-12-10 The 2010s might be remembered as a time of increased polarization in American life The decade contained both the Obama era and the Trump era and as the nation's political fissures widened so did the gap between the haves and have nots Hollywood reflected these divisions choosing to concentrate on big franchise blockbusters at the expense of mid budget films while new players like Netflix and Amazon offered fresh opportunities for low budget and independent filmmakers As the movie business changed films ranging from *American Sniper* to *Get Out* found ways to speak to the concerns of a divided nation The newest installment in the Screen Decades series *American Cinema in the 2010s* takes a close look at the memorable movies visionary filmmakers and behind the scenes drama that made this decade such an exciting time to be a moviegoer Each chapter offers an in depth examination of a specific year covering a wide variety of films from blockbuster superhero movies like *Black Panther* and animated films like *Frozen* to smaller budget biopics like *I, Tonya* and horror films like *Hereditary* This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents taking American cinema in new directions

The Art of Artertainment: Nobrow, American Style Peter Swirski, Tero Eljas Vanhanen, 2019-03-31 Artertainment is more than a novel aesthetic term reflecting the fact that art and entertainment have cross pollinated each other throughout history It is a creative strategy that purposely intertwines highbrow and lowbrow aesthetics in the name of reaching the connoisseurs and the masses The Art of Artertainment sets out to unravel the jumble of aesthetic faultlines and prejudices found wherever we find artistic crossovers which is to say everywhere Revisionist iconoclastic and artertaining in its own right it provides a new framework for the analysis of American nobrow culture from the Colonial times to the digitally turbocharged present

American Rifleman, 1930 **Waste Away** Joshua Reno, 2016 Though we are the most wasteful people in the history of the world very few of us know what becomes of our waste In *Waste Away* Joshua O Reno reveals how North Americans have been shaped by their preferred means of disposal sanitary landfill Based on the author's fieldwork as a common laborer at a large transnational landfill on the outskirts of Detroit the book argues that waste management helps our possessions and dwellings to last by removing the transient materials they shed and sending them elsewhere Ethnography conducted with waste workers shows how they conceal and contain other people's wastes all while negotiating the filth of their occupation holding on to middle class aspirations and occasionally scavenging worthwhile stuff from the trash *Waste Away* also traces the circumstances that led one community to host two landfills and made Michigan a leading importer of foreign waste Focusing on local activists opposed to the

transnational waste trade with Canada the book's ethnography analyzes their attempts to politicize the removal of waste out of sight that many take for granted Documenting these different ways of relating to the management of North American rubbish *Waste Away* demonstrates how the landfills we create remake us in turn often behind our backs and beneath our notice
