**White Supremacy and the American Media** Sarah D. Nilsen, Sarah E. Turner, 2021-11-29 This volume examines the ways in which the media including film television social media and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse With chapters by today s preeminent critical race scholars the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape Systematically scrutinizing every media platform this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives White Supremacy and the American Media will be of interest not only to scholars working in critical race studies and popular culture in the United States but also to those working in the fields of Film and Television Studies Sociology Geography Art History Communication and Media Studies Cultural Studies American Studies Popular Culture and Media Studies Through the Crosshairs Roger Stahl, 2018-06-21 Now that it has become so commonplace we rarely blink an eye at camera footage framed by the crosshairs of a sniper s gun or from the perspective of a descending smart bomb But how did this weaponized gaze become the norm for depicting war and how has it influenced public perceptions Through the Crosshairs traces the genealogy of this weapon s eye view across a wide range of genres including news reports military public relations images action movies video games and social media posts As he tracks how gun camera footage has spilled from the battlefield onto the screens of everyday civilian life Roger Stahl exposes how this raw video is carefully curated and edited to promote identification with military weaponry rather than with the targeted victims He reveals how the weaponized gaze is not only a powerful propagandistic frame but also a prime site of struggle over the representation of state violence **American Sniper** Chris Kyle, Scott McEwen, Jim DeFelice, 2012-01-03 The 1 New York Times bestselling memoir of U S Navy Seal Chris Kyle and the source for Clint Eastwood s blockbuster Academy Award nominated movie An amazingly detailed account of fighting in Iraq a humanizing brave story that s extremely readable PATRICIA CORNWELL New York Times Book Review Jaw dropping Undeniably riveting RICHARD ROEPER Chicago Sun Times From 1999 to 2009 U S Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history His fellow American warriors whom he protected with deadly precision from rooftops and stealth positions during the Iraq War called him The Legend meanwhile the enemy feared him so much they named him al Shaitan the devil and placed a bounty on his head Kyle who was tragically killed in 2013 writes honestly about the pain of war including the deaths of two close SEAL teammates and in moving first person passages throughout his wife Taya speaks openly about the strains of war on their family as well as on Chris Gripping and unforgettable Kyle s masterful account of his

Gilman Jr., 2018-02-09 Owen W Gilman Jr stresses the US experience of war in the twenty first century and argues that wherever and whenever there is war there will be imaginative responses to it especially the recent wars in Afghanistan and Iraq Since the trauma of September 11 the experience of Americans at war has been rendered honestly and fully in a wide range of texts creative nonfiction and journalism film poetry and fiction These responses Gilman contends have packed a lot of power and measure up even to World War II s literature and film Like few other books Gilman s volume studies these new texts among them Kevin Powers s debut novel The Yellow Birds and Phil Klay s short stories Redeployment along with the films The Hurt Locker American Sniper and Billy Lynn s Long Halftime Walk For perspective Gilman also looks at some touchstones from the Vietnam War Compared to a few of the big Vietnam books and films this new material has mostly been read and watched by small audiences and generated less discussion Gilman exposes the circumstances in American culture currently preventing literature and film of our recent wars from making a significant impact He contends that Americans inclination to demand distraction limits learning from these compelling responses to war in the past decade According to Gilman where there should be clarity and depth of knowledge we instead face misunderstanding and the anguish endured by veterans betrayed by war and our lack of understanding **Monstrous Fantasies** Leila K. Norako, 2024-08-15 Monstrous Fantasies asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense

of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's Canterbury Tales conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum Monstrous Fantasies also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as Kingdom of Heaven and American Sniper

**Social Deviance** Tim Delaney, 2017-06-16 The topic of social deviance is inherently intriguing People in general and college students in particular find the topic of deviant behavior fascinating This can be explained at least in part by a combination of the subject matter itself our own past deviant behaviors and our willingness and desire to evaluate and comment on the behaviors of others While the topic of deviant behavior seems straightforward at the surface the study of social deviance reveals how complicated it really is Although Social Deviance utilizes a textbook style approach in its coverage of deviant

behavior this comprehensive straightforward and student friendly book maintains student interest because of the author's use of real life phenomena and current examples Each chapter includes chapter objectives an introductory story a glossary of key terms discussion questions and boxed material The boxed materials include A Closer Look box that zooms in on topics that warrant deeper explanation and a Connecting Social Deviance and Popular Culture box that shows how contemporary forms of popular culture illustrate deviant behavior

American Drama Since 1960 Matthew Charles Roudané, 1996 In the early 1960s two leaders of the New York performance group Living Theatre were asked to define its purpose In this survey of contemporary American drama Matthew C Roudane argues that the response of these two pioneers in experimental theater Julian Beck and Judith Malina goes a long way toward explaining the purpose of all of the rich and varied dramas to appear on the stage since 1960 To increase conscious awareness to stress the sacredness of life to break down the walls African American playwrights Lorraine Hansberry Alice Childress James Baldwin Amiri Baraka women playwrights Marsha Norman Wendy Wasserstein Beth Henley gay playwrights Harvey Fierstein Tony Kushner and others have over the past three and a half decades entreated audiences to acknowledge the persistence of racism sexism homophobia and a host of other societal ills Other playwrights have asked audiences to confront their own mortality Edward Albee their compromised morality David Mamet their unfulfilled American Dream Arthur Miller Sam Shepard and countless others Whatever the particularities of these playwrights personal identities politics of dramatic style they share a willingness to confront uncomfortable truths about the human condition in America since 1960 Ironically it is in their very rebellion against any number of things American that they identify themselves and their literature as such Roudane takes no scattershot approach to his subject Favoring clusters of themes and the broad sweep of movements to linear chronology he develops a carefully aimed analysis of the work of about two dozen of the hundreds of playwrights whose dramas have since 1960 been performed in every venue from regional and university theaters to Off Off Broadway to Off Broadway to Broadway
