## **Americas Army 9 Into The Wolfs Den:**

Who's who in America ,1930      Changing Tracks Timothy Rawson,2001 A century ago nearly all Americans agreed that the fewer wolves the better Now many people ardently defend wolves for ecological ethical spiritual and symbolic reasons Changing Tracks chronicles the issue that helped reshape our views toward predators The wolf sheep controversy in Mt McKinley Denali National Park Alaska had a profound impact on the evolving definition of National Park Service policy and still echoes in today s discussions of wildlife management In the 1930s the Park Service began to question the existing purpose of parks as game refuges Wolves had been extirpated in other parks but when the service stopped killing them in McKinley concern for the declining Dall sheep population aroused antiwolf sentiment The ensuing argument over park wildlife policy lasted more than twenty years as Alaskans and the nation s sportsmen urged vigorous wolf control rather than letting a natural balance prevail in the park The controversy brought Park Service biologist Adolph Murie to Alaska where he conducted the first scientific study of wolf ecology Yet politics and sentiment proved more important than science dictating agency action as is often the case in public policy Arguments over wolves in Alaska and elsewhere now seem endless and they started here Changing Tracks is an essential Alaska story but the issues constitute a cornerstone of conservation history that has been replayed in ecological management and philosophy worldwide Changing Tracks is exceedingly well written and a pleasure to read Journal of the History of Biology A n important contribution to the literature of national park history and of the wolf In tracing the story Rawson was able to shed light on the larger stories of changing attitudes toward animals especially game and predatory animals in American history in general and national park history in particular Environmental History Timothy Rawson has written a splendid book H e spans philosophy evolving perceptions biology politics agency principles and pragmatics and ethics He writes with facility and style because he has mastered the vast documentary trove that holds the story Across all this rugged terrain Rawson retains his balance and provides historical perspectives true to the times he records It is all in this beautifully written and researched book as they say in the trade it is a page turner Alaska History Few subjects illustrate shifting notions of wilderness in national parks better than the treatment of wolves Rawson s account provides a rare opportunity to see how agency leaders decide what was in the best interest of wild nature and the nation this work is informative and compelling and a valuable addition to our understanding of nature Pacific Northwest Quarterly      **Musical America** ,1928      **The American Speaker** Henry David Northrop,1902      *The New York Times Index* ,1916      The popular educator Popular educator,1876      *Firemen and Oilers' Journal* ,1928      *Air University Library Index to Military Periodicals* ,1997      **The Americana** ,1906      **The Encyclopedia Americana** Frederick Converse Beach,1904      **The Encyclopedia Americana** ,1905      *The Americana* Frederick Converse Beach,George Edwin Rines,1911      Commemorative Biographical Record of Northeastern Pennsylvania ,1900      *America's Textile Reporter* ,1899      **Reader's Guide to Periodical Literature Supplement** ,1927      **Army-Navy-Air Force Register and Defense**
