**Historicizing the French Revolution** Antonino De Francesco, 2022-03-24 This book provides a critical examination of over 300 historical works about the French Revolution published in Europe in particular in France Great Britain Germany Italy and Russia as well as in the United States between 1789 and 1989 It also goes on to examine recent trends in French Revolution historiography and consider where histories of this landmark event may go in the future By emphasizing the elements which have been valued or hidden exalted or silenced Historicizing the French Revolution shows how reflections on 1789 are always fundamentally tied to the times in which they are formulated Antonino De Francesco looks at the ways in which these historical accounts can be seen to support and at times contrast with the formation of political modernity both in national and international contexts as it has taken shape in the hundreds of years that have followed this key moment in world history

**The Enlightenment of Thomas Beddoes** Trevor Levere, Larry Stewart, Hugh Torrens, Joseph Wachelder, 2016-11-10 Thomas Beddoes 1760 1808 lived in decidedly interesting times in which established orders in politics and science were challenged by revolutionary new ideas Enthusiastically participating in the heady atmosphere of Enlightenment debate Beddoes career suffered from his radical views on politics and science Denied a professorship at Oxford he set up a medical practice in Bristol in 1793 Six years later with support from a range of leading industrialists and scientists including the Wedgwoods Erasmus Darwin James Watt James Keir and others associated with the Lunar Society he established a Pneumatic Institution for investigating the therapeutic effects of breathing different kinds of air on a wide spectrum of diseases The treatment of the poor gratis was an important part of the Pneumatic Institution and Beddoes who had long concerned himself with their moral and material well being published numerous pamphlets and small books about their education wretched material circumstances proper nutrition and the importance of affordable medical facilities

Beddoes democratic political concerns reinforced his belief that chemistry and medicine should co operate to ameliorate the conditions of the poor But those concerns also polarized the medical profession and the wider community of academic chemists and physicians many of whom became mistrustful of Beddoes projects due to his radical politics Highlighting the breadth of Beddoes concerns in politics chemistry medicine geology and education including the use of toys and models this book reveals how his reforming and radical zeal were exemplified in every aspect of his public and professional life and made for a remarkably coherent program of change He was frequently a contrarian but not without cause as becomes apparent once he is viewed in the round as part of the response to the politics and social pressures of the late Enlightenment

**Speculation Nation** Michael A. Blaakman, 2023-09-19 During the first quarter century after its founding the United States was swept by a wave of land speculation so unprecedented in intensity and scale that contemporaries and historians alike have dubbed it a mania In *Speculation Nation* Michael A Blaakman uncovers the revolutionary origins of this real estate bonanza a story of ambition corruption capitalism and statecraft that stretched across millions of acres from Maine to the Mississippi and Georgia to the Great Lakes Patriot leaders staked the success of their revolution on the seizure and public sale of Native American territory Initially they hoped that fledgling state and national governments could pay the hefty costs of the War for Independence and extend a republican society of propertied citizens by selling expropriated land directly to white farmers But those democratic plans quickly ran aground of a series of obstacles including an economic depression and the ability of many Native nations to repel U S invasion Wily merchants lawyers planters and financiers rushed into the breach Scrambling to profit off future expansion they lobbied governments to convey massive tracts for pennies an acre hounded revolutionary veterans to sell their land bounties for a pittance and marketed the rustic ideal of a yeoman s republic the early American dream while waiting for land values to rise When the land business crashed in the late 1790s scores of land mad speculators found themselves imprisoned for debt or declaring bankruptcy But through their visionary schemes and corrupt machinations U S speculators and statesmen had spawned a distinctive and enduring form of settler colonialism a financialized frontier which transformed vast swaths of contested land into abstract commodities *Speculation Nation* reveals how the era of land mania made Native dispossession a founding premise of the American republic and ultimately rooted the United States empire of liberty in speculative capitalism 2013 Massimo Mastrogregori, 2017-11-20 Every year the Bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the systematic classification according to epoch region and historical discipline works are also listed according to author s name and characteristic keywords in their title England and the French Revolution, 1789-1797 William Thomas Laprade, 1910 Originally presented as the author s thesis John Hopkins University 1909 *England and the French Revolution, 1789-1797* William Thomas Laprade, 1910 *The Origin and Principles of the American Revolution, Compared with the Origin and*

purest aims of Jacobin ideology were exterminated
