Director of Beth Chatto's Plants and Gardens     *Beth Chatto's Damp Garden* Beth Chatto, Steven Wooster, Erica Hunningher, 2005 Beth Chatto's classic volume newly revised, updated and magnificently illustrated with color photographs provides expert advice on cultivating every conceivable type of damp garden whether it has moist silt or sticky clay whether it's sunny or shady or whether you're starting from scratch or sprucing up an existing site Chatto explains everything about preparation, drainage, laying the first shade bed, coping with weeds, mulching, developing water and bog gardens and large scale garden management. There's information about some of the hardiest plants and some actual plans to use in designing, all with lists of flowers and shrubs arranged by season. An especially valuable A to Z of plants include perennials, bulbs and rhizomes, a few bamboos, grasses and ferns     *Beth Chatto's Woodland Garden* Beth Chatto, Erica Hunningher, Steven Wooster, 2005 Now in paperback, Beth Chatto takes us on a tour of her woodland garden, revealing a triumph of planting in dry shade. For gardeners who yearn for beauty in north-facing borders and in beds beneath shrubs and trees, this book offers a wealth of practical inspiration and a palette of over 500 plants adapted by nature to flourish in shade. Beth Chatto has an unrivalled knowledge of plants combined with an artist's eye for colour, form and shape and for over 40 years has led the way in showing gardeners that so-called problem areas should be seen as advantages. In this book she describes the transformation of a derelict site into a woodland garden full of life and vigour in every season where plants carpet the floor beneath green, lichen-covered tree trunks and groups of shrubs create backgrounds for herbaceous plants and bulbs. Written in her engagingly personal style and illustrated throughout with Steven Wooster's superb photographs, *Beth Chatto's Woodland Garden* shows how the trial of planting in shade can be an opportunity that every gardener will want to emulate     *Beth Chatto's Shade Garden* Beth Chatto, 2017-02 Beth Chatto takes us on a guided tour of her woodland garden, revealing a triumph of planting in dry shade     *The Future of Gardens* Mark Lane, 2025-05-06 A bold new look at the changes confronting gardening, including climate change and AI, by acclaimed horticulturalist, TV host and disabilities activist Mark Lane. Gardening is about choices: Which plants to choose for your soil type and conditions; Where to place them to maximise their growth; What to feed them and when to water them; And how can all of this be done in a sustainable way? In *The Future of Gardens*, broadcaster and designer Mark Lane examines present day considerations alongside those gardeners will need to make in the future. As Earth heats up and populations soar, water will become scarcer on many parts of the planet and efficient management of it will be key; drought-tolerant planting and smart irrigation systems will likely become commonplace as will vertical and otherwise space-restricted gardening. And as our world faces stressed or collapsing ecosystems, gardens will be crucial in improving wildlife populations but only if we let them. Tech will play its part too: AI-powered apps already provide tips to the green-fingered but its dominance is a concern. How might we find a happy coexistence? Lane also imagines the potential for gardening in space: what challenges will interstellar travellers face as they cultivate plants on spacecrafts or even on distant worlds? *The Future of Gardens* looks at this evergreen discipline with a bold, vibrant and inquisitive eye. Lane's
