The Successful College Athletic Program John R. Gerdy, 1997 John Gerdy offers a critical analysis of how athletic programs can contribute to the mission of a college or university in meaningful ways beyond their roles in providing revenue and entertainment He explores the history of athletic programs and then offers a philosophical rationale for setting a new standard against which the success of college athletic programs should be measured Rather than focusing on the level of funds generated or on the number of championships won this new standard offers a basis for determining how successful a college athletic program is in helping the institution meet its many challenges and educational goals

Character is Everything Russell Wayne Gough, 1997 Gough s practical approach asks readers to examine the effects personal character has on performance teammates fans the league and other individuals and groups in sports Gough discusses sport s powerful cultural force its potential for positive impact in the lives and society of those involved in it and the ethical dimension of games Gough also addresses the tenuous state of ethics in today s sports culture and the great potential for improvement
