## **Ai Weiwei Circle Of Animals:**

**Ai Weiwei** Ai Weiwei, Weiwei Ai, 2011 This title looks at Chinese artist Ai Weiwei's Circle of Heads his twelve large bronze animal heads depicting the ancient Chinese zodiac *Ai Weiwei* Weiwei Ai, Susan Delson, Los Angeles County Museum of Art, 2011 **Ai Weiwei**, 2015 *Ai Weiwei* Fernando Francés, María Jesús Martínez Silvente, 2015 **Ai Weiwei** Anita Chung, Weiwei Ai, Cleveland Museum of Art Staff, 2013 **Ai Weiwei** Weiwei Ai, 2011 *Ai Weiwei, Circle of Animals/Zodiac Heads: Gold, & Yoan Capote, Rerum Alter Natura (Other Nature of Things)*, 2013 **Ai Weiwei** Phillips (Auctioneers), 2015 *Ai Weiwei*, 2015 *Ai Weiwei, Circle of Animals*, 2015 **The Zoomorphic Imagination in Chinese Art and Culture** Jerome Silbergeld, Eugene Y. Wang, 2016-10-31 China has an age old zoomorphic tradition The First Emperor was famously said to have had the heart of a tiger and a wolf The names of foreign tribes were traditionally written with characters that included animal radicals In modern times the communist government frequently referred to Nationalists as running dogs and President Xi Jinping vowing to quell corruption at all levels pledged to capture both the tigers and the flies Splendidly illustrated with works ranging from Bronze Age vessels to twentieth century conceptual pieces this volume is a wide ranging look at zoomorphic and anthropomorphic imagery in Chinese art The contributors leading scholars in Chinese art history and related fields consider depictions of animals not as simple one for one symbolic equivalents they pursue in depth in complexity and in multiple dimensions the ways that Chinese have used animals from earliest times to the present day to represent and rhetorically stage complex ideas about the world around them examining what this means about China past and present In each chapter a specific example or theme based on real or mythic creatures is derived from religious political or other sources providing the detailed and learned examination needed to understand the means by which such imagery was embedded in Chinese cultural life Bronze Age taotie motifs calendrical animals zoomorphic modes in Tantric Buddhist art Song dragons and their painters animal rebuses Heaven sent auspicious horses and foreign sent tribute giraffes the fantastic specimens depicted in the Qing Manual of Sea Oddities the weirdly indeterminate creatures found in the contemporary art of Huang Yong Ping these and other notable examples reveal Chinese attitudes over time toward the animal realm explore Chinese psychology and patterns of imagination and explain some of the critical means and motives of Chinese visual culture *The Zoomorphic Imagination in Chinese Art and Culture* will find a ready audience among East Asian art and visual culture specialists and those with an interest in literary or visual rhetoric Contributors Sarah Allan Qianshen Bai Susan Bush Daniel Greenberg Carmelita Carma Hinton Judy Chungwa Ho Kristina Kleutghen Kathlyn Liscomb Jennifer Purtle Jerome Silbergeld Henrik S. Rensen and Eugene Y. Wang **The Minjian Avant-Garde** Chang Tan, 2024-02-15 *The Minjian Avant Garde* studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework

in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment

**Modernisation of Chinese Culture** Jana S. Rošker, Nataša Vampelj Suhadolnik, 2014-09-26 The editors are grateful to the Chiang Ching kuo Foundation for its generous support of their research work which enabled them to publish the present book The present book carefully maps the Chinese modernisation discourse highlighting its relationship to other similar discourses and situating it within historical and theoretical contexts In contrast to the majority of recent discussions of a Chinese development model that tend to focus more on institutional than cultural factors and are more narrowly concerned with economic matters than overall social development the book offers several important focal points for many presently overlooked issues and dilemmas The multifaceted perspectives contained in this anthology are not limited to economic social and ecological issues but also include political and social functions of ideologies and cultural conditioned values representing the axial epistemological grounds of modern Chinese society 2011 was the 100th anniversary of the Xinhai Revolution The centennial is relevant not only in terms of state ideology but also plays a significant role within academic research into Chinese society and culture This historic turning point likewise represents the symbolic and concrete linkages and tensions between tradition and modernity progress and conservatism traditional values and the demands for adjustment to contemporary societies The book shows that Chinese transition from tradition to modernity cannot be understood in a framework of a unified general model of society but rather through a more complex insight into the interrelations among elements of physical environment social structure philosophy history and culture

*China from the Ruins of Athens and Rome* Chris Murray, 2020-08-06 Fascinated and often baffled by China Anglophone writers turned to classics for answers In poetry essays and travel narratives ancient Greece and Rome lent interpretative paradigms and narrative shape to Britain's information on the Middle Kingdom While memoirists of the diplomatic missions in 1793 and 1816 used classical ideas to introduce Chinese concepts Roman history held ominous precedents for Sino British relations according to Edward Gibbon and Samuel Taylor Coleridge John Keats illuminated how peculiar such contemporary processes of Orientalist knowledge formation were In Britain popular opinion on Chinese culture wavered during the nineteenth century as Charles Lamb and Joanna Baillie demonstrated in ekphrastic responses to chinoiserie A former reverence for China yielded gradually to hostility and the classical inheritance informed a national

identity crisis over whether Britain's treatment of China was civilized or barbaric. Amidst this uncertainty the melancholy conclusion to Virgil's Aeneid became the master text for discussion of British conduct at the Summer Palace in 1860. Yet if Rome was to be the model for the British Empire, Tennyson, Sara Coleridge and Thomas de Quincey found closer analogues for the Opium Wars in Greek tragedy and Homeric epic. Meanwhile Sinology advanced considerably during the Victorian age. Britain broadened its horizons by interrogating the cultural past anew as it turned to Asia. Anglophone readers were cosmopolitans in time as well as space, aggregating knowledge of Periclean Athens, imperial Rome and many other polities in their encounters with Qing Dynasty China.

**The Cambridge Handbook of Material Culture Studies** Lu Ann De Cunzo, Catharine Dann Roeber, 2022-06-09. Material culture studies is an interdisciplinary field that examines the relationships between people and their things, the production, history, preservation and interpretation of objects. Written by leading international scholars, this Handbook provides a comprehensive view of developments, methodologies and theories. It is divided into five broad themes embracing both classic and emerging areas of research in the field. Chapters outline transformative moments in material culture scholarship and present research from around the world focusing on multiple material and digital media that show the scope and breadth of this exciting field. Written in an easy-to-read style, it is essential reading for students, researchers and professionals with an interest in material culture.

**Heritage in the Digital Era** Rodanthi Tzanelli, 2013. What happens to traditional conceptions of heritage in the era of fluid media spaces? Heritage usually involves intergenerational transmission of ideas, customs, ancestral lands and artefacts and so serves to reproduce national communities over time. However, media industries have the power to transform national lands and histories into generic landscapes and ideas through digital reproductions or modifications, prompting renegotiations of belonging in new ways. Contemporary media allow digital environments to function as transnational classrooms, creating virtual spaces of debate for people with access to televised cinematic and Internet ideas and networks. This book examines a range of popular cinematic interventions that are reshaping national and global heritage across Europe, Asia, the Americas and Australasia. It examines collaborative or adversarial articulations of such enterprise by artists, directors, producers but also local national and transnational communities that blend activism with commodification, presenting new cultural industries as fluid but significant agents in the production of new public spheres. Heritage in the Digital Era will appeal to students and scholars of sociology, film studies, tourist studies, globalization theory, social theory, social movements, human cultural geography and cultural studies.
