From the man who predicted the worst economic crisis in US history comes Jim Rickards second prediction the collapse of our global economy The supply chain crisis is coming to a head Today your favorite products are missing from store shelves caught in supply chain limbo somewhere in the Pacific Ocean But what does this supply chain disruption look like six months or even three years from now While we hope that post pandemic recovery will absolve these issues the reality is that digital currency meme stonks and social media can't solve the age old problem of producing and moving physical goods across oceans and continents According to Jim Rickards consumer frustration is only the tip of a very large menacing iceberg that threatens global economic collapse In *Sold Out* Rickards shares his predictions for our post pandemic future and outlines how consumers and business owners can get ahead of the collapse You'll learn how energy shortages in China fueled by the trade war with Australia are disrupting the steel market and forcing entire factories to shut down You'll also learn how rising inflation will ultimately lead to deflation in a few short years as consumer spending eventually tanks due to higher taxes excessive debt and increased layoffs and why such economic conditions will closely resemble the 1930s Finally Rickards will look at the future of money including the erasure of the American dollar itself Our global economy faces unprecedented challenges in the next few months But whether we sink or swim depends on how prepared we are and what we do now to thwart the coming collapse    *Aircraft Engineering and Aerospace Technology* ,1992    **The Rough Guide to Able to Travel** Alison Walsh,1994    [The Penguin Guide to Portugal](#) ,1991    [Flight International](#) ,1968    [ARBA Guide to Subject Encyclopedias and Dictionaries](#) Susan C.
