Tough Ain't Enough Lester D. Friedman, David Desser, 2018-06-29 Throughout his lengthy career as both an actor and a director Clint Eastwood has appeared in virtually every major film genre and at this point in his career has emerged as one of America's most popular recognizable and respected filmmakers. He also remains a controversial figure in the political landscape often characterized as the most prominent conservative voice in mostly liberal Hollywood. At Eastwood's late age his critical success as actor and director his combative willingness to confront serious cultural issues in his films and his undeniable talent behind the camera all call for a new and comprehensive study that considers and contextualizes his multiple roles both on and off screen. *Tough Ain't Enough* offers readers a series of original essays by prominent cinema scholars that explore the actor/director's extensive career. The result is a far reaching and nuanced portrait of one of America's most prolific and thoughtful filmmakers.

Going Scapegoat David A. Buchanan, 2016-09-12 Since 9/11 war literature has become a key element in American popular culture spurring

critical debate about depictions of combat Who can write war literature When can they do it This book presents a new way to closely read war narratives questioning the idea of combat gnosticism the belief that the experience of war is impossible to communicate to those who have not seen it that has dominated the discussion Adapting Kenneth Burke's scapegoat mechanism to the criticism of literature and film the author examines three novels from 2012 Ben Fountain's *Billy Lynn's Long Halftime Walk* David Abrams's *FOBBIT* and Kevin Powers' *The Yellow Birds* that represent the U.S. military responses to

9/11. International Perspectives on Rethinking Evil in Film and Television Tüysüz, Dilan, 2020-12-22 Aestheticization of evil is a frequently used formula in cinema and television. However, the representation of evil as an aesthetic object pushes it out of morality. Moral judgments can be pushed aside when evil is aestheticized in movies or TV series because there is no real victim. Thus, situations such as murder or war can become a source of aesthetic pleasure. Narratives in cinema and television can sometimes be based on a simple good/evil dichotomy and sometimes they can be based on individual or social experiences of evil and follow a more complicated method. Despite the various ways evil is depicted, it is a moral framework in film and television that must be researched to study the implications of aestheticized evil on human nature and society. *International Perspectives on Rethinking Evil in Film and Television* examines the changing representations of evil on screen in the context of the commonness, normalization, aestheticization, marginalization, legitimization, or popularity of evil. The chapters provide an international perspective of the representations of evil through an exploration of the evil tales or villains in cinema and television. Through looking at these programs, this book highlights topics such as the philosophy of good and evil, the portrayal of heroes and villains, the appeal of evil, and evil's correspondence with gender and violence. This book is ideal for sociologists, professionals, researchers, and students working or studying in the field of cinema and television and practitioners, academics, and anyone interested in the portrayal and aestheticization of evil in international film and television.

The Encyclopedia of Racism in American Films Salvador Jiménez Murguía, 2018-04-12 Winner RUSA 2019 Outstanding References Source Winner and named a Library Journal Best Reference Book of the Year 2018. From D.W. Griffith's *Birth of a Nation* in 1915 to the recent *Get Out*, audiences and critics alike have responded to racism in motion pictures for more than a century. Whether subtle or blatant, racially biased images and narratives erase minorities, perpetuate stereotypes, and keep alive practices of discrimination and marginalization. Even in the 21st century, the American film industry is not color blind, evidenced by films such as *Babel* 2006, *A Better Life* 2011, and *12 Years a Slave* 2013. *The Encyclopedia of Racism in American Film* documents one facet of racism in the film industry, wherein historically underrepresented peoples are misrepresented through a lack of roles for actors of color, stereotyping, negative associations, and an absence of rich, nuanced characters. Offering insights and analysis from over seventy scholars, critics, and activists, the volume highlights issues such as Hollywood's diversity crisis, White Savior films, Magic Negro tropes, and the disconnect between screen images and lived realities of African Americans, Latinos, Native Americans, and Asians. A companion to the ever

growing field of race studies this volume opens up a critical dialogue on an always timely issue The Encyclopedia of Racism in American Film will appeal to scholars of cinema race and ethnicity studies and cultural history *The Life and Legend of Chris Kyle: American Sniper, Navy SEAL* Michael J.
