## **American Sniper Sheepdog:**

**Edinburgh Companion to Globalgothic** Rebecca Duncan, 2023-06-15 The *Edinburgh Companion to Globalgothic* is the most substantial exploration to date of gothic fiction in the international context. Examining texts from across six continents, the volume considers how gothic imagines colludes with or interrogates relationships and phenomena that are planetary in scale. Accordingly, chapters address gothic engagements with, among others, resource imperialism, ongoing colonial history, diasporic identity, buckling economic unions, the rise of the internet, ethnonationalism, and entangled systems of gendered, racialised, and ecocidal power. In this way, the collection moves decisively beyond the framework of globalisation to identify a range of new globalgothic approaches and modes, overall demonstrating that gothic is a key, though sometimes complicit, register for negotiating the challenges and histories of our uneven global present.

**Uncertain Warriors** David Fitzgerald, 2023-11-09 In an era where history had supposedly ended, what was an Army for? This question confronted the US Army at the end of the Cold War. Although public support for the military remained high, fewer were sending their children to enlist, and questions were raised about the uncertainty of future operations. How would Army leaders prepare soldiers for difficult peacekeeping operations that called for a more human-oriented approach in light of the promises of high-tech warfare? How best to navigate the broader debates about changing gender and sexual norms in American society? Pulled in different directions, the Army struggled to put forward a compelling vision of who and what the American soldier should be. In *Uncertain Warriors*, David Fitzgerald reveals how, in response to this uncertainty, they eventually fell back on an older vision of martial masculinity, embracing a warrior ethos that was meant to define the contemporary American soldier.

**The Hero and the Victim** Gregory Brazeal, 2024-10-08 How American fiction represents soldiers and soldier criminality in depictions of the Iraq War.

**Monsters, Law, Crime** Caroline Joan "Kay" S. Picart, 2020-11-18 *Monsters, Law, Crime* is an edited collection composed of essays written by prominent US and international experts in Law, Criminology, Sociology, Anthropology, Communication, and Film. It constitutes a rigorous attempt to explore fertile interdisciplinary inquiries into monsters and monster talk and law and crime. This edited collection explores and updates contemporary discussions of the emergent and evolving frontiers of monster theory in relation to cutting-edge research on law and crime as extensions of a Gothic Criminology. This theoretical framework was initially developed by Caroline Joan Kay S. Picart, a Philosophy and Film professor turned Attorney and Law professor, and Cecil Greek, a Sociologist. Picart and Greek (2008) proposed a Gothic Criminology to analyze the fertile synapses connecting the real and the reel in the flow of Gothic metaphors and narratives that abound around criminological phenomena that populate not only popular culture but also academic and public policy discourses. Picart's edited collection adapts the framework to focus predominantly on law and the social sciences.

*Hollywood's Imperial Wars* Armando José Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility, Hollywood needed a new kind of war movie. The familiar triumphal narrative was relegated to

history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando Jos Prats explores in Hollywood's Imperial Wars The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like Sands of Iwo Jima to the rupture of that myth in films such as The Deer Hunter Apocalypse Now and Platoon As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like American Sniper that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts

**American War Stories** Brenda M. Boyle, 2020-11-13 American War Stories asks readers to contemplate what traditionally constitutes a war story and how that constitution obscures the normalization of militarism in American culture The book claims the traditionally narrow scope of war story as by a combatant about his wartime experience compartmentalizes war casting armed violence as distinct from everyday American life Broadening war story beyond the specific genres of war narratives such as war films war fiction or war memoirs American War Stories exposes how ingrained militarism is in everyday American life a condition that challenges the very democratic principles the United States is touted as exemplifying
