American Tradition In Literature Perkins 12th:

The American Tradition in Literature George B. Perkins, Barbara Perkins, 2007 A Disturbing and Alien Memory Douglas L. Mitchell, 2008-12

In the late nineteenth century as the study of history shifted from the domain of letters into the social sciences novelists in the North and the West generally turned away from writing history. Many southern novelists and poets however continued to undertake historical writing as an extension of their art form. What made southern literary figures differ from their northern and western counterparts? In *A Disturbing and Alien Memory* Douglas L. Mitchell addresses this intriguing question by tracing a line of southern writers from the early nineteenth century to the mid twentieth finding that an obsessive need to defend the South and the oft noted rage to explain drove some creative writers to continue to make forays into history and biography in an effort to enter a more public sphere where they could more decisively influence interpretations of the past. In the Romantic history of the nineteenth century Mitchell explains men of letters saw themselves as keepers of memory whose renderings of the past could help shape the future of the nation. He explores the historical writing of William Gilmore Simms to trace the failure of Romantic nationalism in the growing split between North and South then turns to Thomas Nelson Page's effort to resurrect the South as a spiritual nation with a redeemed history after the Civil War. Mitchell juxtaposes their work with that of William Wells Brown the pioneering African American historian and novelist who used the authority of history to write blacks into the American story. Moving into the twentieth century Mitchell analyzes the historical component of the Southern Agrarian project focusing on the tension between modernist aesthetics and polemical aims in Allen Tate's Civil War biographies. He then traces a path toward a viable historical vision Robert Penn Warren's recovery of a tragic understanding and the creation of a compelling historical art in the work of Shelby Foote. Throughout Mitchell examines the peculiar dilemma of southern writers the changing nature of history and its relation to the realm of letters and the question of public authority shedding light on several neglected texts in the process including Simms's *The Sack and Destruction of Columbia* S. C. Brown's *The Negro in the American Rebellion* Tate's *Jefferson Davis* and Warren's *John Brown*. Offering a new perspective on a perennial debate in southern letters *A Disturbing and Alien Memory* provides a critical framework for a neglected genre in the southern literary canon.

Anthologizing Poe Emron Esplin, Margarida Vale de Gato, 2020-08-06

This collection explores how anthologizers and editors of Edgar Allan Poe play an integral role in shaping our conceptions of Poe as the author we have come to recognize, revere and critique today. In the spheres of literature and popular culture Poe wields more global influence than any other U.S. author. This influence however cannot be attributed solely to the quality of Poe's texts or to his compellingly tragic biography. Rather his continued prominence as a writer owes much to the ways that Poe has been interpreted, portrayed and packaged by an extensive group of mediators ranging from anthologizers, editors, translators and fellow writers to literary critics, filmmakers, musicians and illustrators. In this volume the work of presenting Poe's texts for public consumption becomes a fascinating object of study in its own right, one that
