## **Among African Apes Stories And Photos From The Field:**

**Among African Apes** Martha M. Robbins, Christophe Boesch, 2011-06-13 These compelling stories and photographs take us to places like Bwindi Impenetrable National Park in Uganda Ivindo National Park in Gabon and the Ta National Park in Côte d'Ivoire for an intimate and revealing look at the lives of African wild apes and at the lives of the humans who study them. In tales of adventure research and conservation veteran field researchers and conservationists describe exciting discoveries made over the past few decades about chimpanzees bonobos and gorillas. The book features vivid descriptions of interactions among these highly intelligent creatures as they hunt socialize and play. More difficult themes emerge as well including the threats apes face from poaching disease and deforestation. In stories that are often moving and highly personal this book takes measure of how special the great apes are and discusses positive conservation efforts including ecotourism that can help bring these magnificent animals back from the brink of extinction. **Among African Apes** Martha M. Robbins, Christophe Boesch, 2011-06-13 Among African Apes is an exciting report fresh from the scientific frontlines a series of personal dramatic and yet superbly informative accounts of the latest research. It also reminds us that our nearest relatives the African great apes are threatened as never before with the prospect of extinction. Dale Peterson author of Elephant Reflections and Eating Apes This engaging and compelling book is an up close and personal glimpse into the lives of wild chimpanzees bonobos and gorillas. In these narratives set in the lush tangled forests of tropical Africa scientific observation meets adventure story as the lives of individual animals are intertwined with the agonies and ecstasies of fieldwork. Kelly Stewart co author of Gorilla Society and author of Gorillas. Some of the most devoted primatologists offer a wonderful collection of first hand accounts and splendid photographs that make us feel like we're beside them watching our relatives in the forest. Frans de Waal author of Our Inner Ape and Chimpanzee Politics. **Primate Ethnographies** Karen B.

Brian Ferguson, 2023 The question of whether men are predisposed to war runs hot in contemporary scholarship and online discussion. Within this debate chimpanzee behavior is often cited to explain humans propensity for violence the claim is that male chimpanzees kill outsiders because they are evolutionarily inclined suggesting to some that people are too. The longstanding critique that killing is instead due to human disturbance has been pronounced dead and buried. In *Chimpanzees War and History* R. Brian Ferguson challenges this consensus. Bringing readers on a journey through theoretical struggle and clashing ideas about chimpanzees bonobos and evolution Ferguson opens new ground on the age old question are men born to kill. *The International Encyclopedia of*
