### **Beyond Caste Brills Indological Library:**

**Beyond Caste** Sumit Guha, 2013-09-12 Caste is today almost universally perceived as an ancient and unchanging Hindu institution preserved solely by a deep seated religious ideology Yet the word itself is an importation from sixteenth century Europe This book tracks the long history of the practices amalgamated under this label and shows their connection to changing patterns of social and political power down to the present It frames caste as an inviolated and complex form of ethnicity and explains why it persisted under non Hindu rulers and in non Hindu communities across South Asia

**Inequality in Capitalist Societies** Surinder S. Jodhka, Boike Rehbein, Jessé Souza, 2017-07-14 Inequality is one of the most discussed topics of our times Yet we still do not know how to tackle the issue effectively The book argues that this is due to the lack of understanding the structures responsible for the persistence of social inequality It enquires into the mechanisms that produce and reproduce invisible dividing lines in society Based on original case studies of Brazil Germany India and Laos comprising thousands of interviews the authors argue that invisible classes emerge in capitalist societies both reproducing and transforming precapitalist hierarchies At the same time locally particular forms of inequality persist Social inequality in the contemporary world has to be understood as a specific combination of precapitalist inequalities capitalist transformation and a particular class structure which seems to emerge in all capitalist societies The book links the configurations to an interpretation of global domination as well as to symbolic classification

**Painting Stories** Helle Bundgaard, 2021-12-02 Painting Stories explores the accomplishments struggles and livelihoods of traditional artisans in Raghurajpur a village known for its patta chitra painters In this collection Helle Bundgaard weaves thirty years of observations and experiences into a tapestry of stories which together present a poignant image of the lives of Indian craft makers and their personal connections to the art that they create The painters stories are situated in a rich cultural environment and steeped in social relations For them painting is more than a livelihood or an aesthetic expression it is a way of life Painting Stories is a window into a part of our world rarely seen reminding us of both our rich diversity and our shared humanity Written with the painters students and laypersons in mind the book includes a discussion of ethnographic storytelling and resources for ethnographic writing as well as color photographs that bring the stories to life

**Hinduism** Shyam Ranganathan, 2018-07-06 Hinduism A Contemporary Philosophical Investigation explores Hinduism and the distinction between the secular and religious on a global scale According to Ranganathan a careful philosophical study of Hinduism reveals it as the microcosm of philosophical disagreements with Indian resources across a variety of topics including ethics logic the philosophy of thought epistemology moral standing metaphysics and politics This analysis offers an original and fresh diagnosis of studying Hinduism colonialism and a global rise of hyper nationalism as well as the frequent acrimony between scholars and practitioners of Hindu traditions This text is appropriate for use in undergraduate and graduate courses on Hinduism and Indian philosophy and can be used as an advanced introduction to the problems of

philosophy with South Asian resources      *The Routledge Companion to the Philosophy of Race* Paul Taylor, Linda Alcoff, Luvel Anderson, 2017-11-28 For many decades race and racism have been common areas of study in departments of sociology history political science English and anthropology Much more recently as the historical concept of race and racial categories have faced significant scientific and political challenges philosophers have become more interested in these areas This changing understanding of the ontology of race has invited inquiry from researchers in moral philosophy metaphysics epistemology philosophy of science philosophy of language and aesthetics The Routledge Companion to Philosophy of Race offers in one comprehensive volume newly written articles on race from the world's leading analytic and continental philosophers It is however accessible to a readership beyond philosophy as well providing a cohesive reference for a wide student and academic readership The Companion synthesizes current philosophical understandings of race providing 37 chapters on the history of philosophy and race as well as how race might be investigated in the usual frameworks of contemporary philosophy The volume concludes with a section on philosophical approaches to some topics with broad interest outside of philosophy like colonialism affirmative action eugenics immigration race and disability and post racialism By clearly explaining and carefully organizing the leading current philosophical thinking on race this timely collection will help define the subject and bring renewed understanding of race to students and researchers in the humanities social science and sciences      *Autonomy* Paula Banerjee, Samir Kumar Das, 2008-07 In the first decade of the twenty first century autonomy has become one of the major concerns of our social and political existence The right to autonomous life is now a political cultural and social call of both the individual and group The present volume is a critical attempt to understand autonomy from both historical and analytical perspectives Autonomy in this collective reading emerges as deeply rooted in social practices and contentious politics      Subject Guide to Books in Print, 1996      Guide to Reprints 2002 Irene Izod, 2001-10      The Kingdom Beyond Caste (Classic Reprint) Liston Pope, 2017-10-29 Excerpt from The Kingdom Beyond Caste Any serious discussion of the explosive question of race is likely to reveal sooner or later the personal credentials of those engaged in it These credentials will have to do not only with range of experience but also with fundamental perspectives on the nature of man and society and with the faith or lack of it by which one lives However rigorously one may seek to be objective personal attitudes and convictions color the discussion profoundly About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Hindu Castes and Sects: An Exposition of the Origin of the Hindu Caste System and the Bearing of the Sects Towards Each Other*
