Beyond Right And Wrong Beyond Right And Wrong:

Life Beyond Shame: Rewriting the Rules Connie Dawson, PhD, 2016-03-18 Weve lived for eons with a set of rules guiding how we have relationships with one another These Old Rules have without question been inadvertently passed without examination from generation to generation by our families Its past time to expose them to the light of day Why Together these Old Rules create a toxic environment we accept as inviolate We struggle against others and against ourselves not realizing that the shame based Old Rules hold us back from being who we are meant to be and doing what we are meant to do When feelings of undeserved shame something is wrong with us become part of how we think of ourselves two things are true 1 our true selves become more defended and less available to ourselves and others and 2 we become more easily manipulated to serve someone elses needs in ways that are not in our best interests That sense of shame and the Old Rules reinforce each other One look at them and its easy to see how they make it difficult to have healthy relationships They are definitely not conducive to happiness We know better We just need to know how to do better one rule at a time Unmasking and replacing Old Rules with even one of the New Rules begins to change everything Change the rules change the game

Beyond Humanism Saji Varghese, 2014-01-01 All the major ethical theories in the Western philosophical tradition from Socrates and Plato through Aristotelian virtue ethics and Kantian deontology to utilitarianism have disagreed about two related ideas what it means to be human and what it means to relate morally to the other However all of these traditions have shared the basic assumption that the morally significant other is human family friends fellow citizens or fellow human beings This is true even when these moral relationships are established or supported by God Given this tradition any deep shift in our relationship to nature will require a new understanding of what it means for human beings to relate to the natural world and to live a moral life as part of that world The present volume a conglomerate of number of historical and Philosophical essays from Scholars of different regions of India do present varieties of perspectives on environment It is a comprehensive attempt to understand the ethical response humans ought to have towards nature The pernicious degradation on the environment results in a threat to the existence of life itself on the earth The wakeup call though late is an effort to let the world know about the need to create an awareness among the so called rationales of the moral values attached to various ingredients of the nature of which he is a part
