And The Gathered And Scattered Church Exponential Series:

DiscipleShift Jim Putman, Bobby Harrington, 2013-04-23 Question What is the God given purpose of the local church Answer Relational discipleship DiscipleShift walks you through five key shifts that churches must make to refocus on the fundamental biblical mission of discipleship These intentional changes will attract the world and empower your church members to be salt and light in their communities Over the last thirty years many influential church leaders and church planters in America have adopted various models for reaching unchurched people While many of these approaches have merit something is still missing something even more fundamental to the mission of the church discipleship Making disciples helping people to trust and follow Jesus is the church's God given mandate Devoted disciples attract people outside the church because of the change others see in their Christ like lives And discipleship empowers Christians to be more like Christ as they intentionally develop relationships with non believers Through biblical and professional insights Jim Putman and Bobby Harrington discuss the transformational effectiveness of making disciples and just how to do so in practical terms You ll learn The specific roles of a disciple making pastor The components of person to person discipleship How each ministry in your church leads to discipleship How to implement discipleship in your church Disciple making leaders will not produce perfect churches but they will create effective churches

Balanced Discipleship Justin Campbell, 2023-03-09 The data is in more and more people are leaving the church We've worked hard at creating better programs better music and better sermons but it's not enough This is in stark contrast to the global church that is growing exponentially What are they doing differently What can we learn In Matthew 28 Jesus does not ask us to go into the world and make great church services he tells us to go into the world and make disciples Campbell takes a deep dive into the Great Commission exploring Jesus balanced model of discipleship and giving us practical tools to apply to our local church

Ethnic Blends Mark DeYmaz, Harry Li, 2010 In this Leadership Network Innovation series book Ethnic Blends Mark DeYmaz will help you navigate seven common challenges in building a healthy multi ethnic church The rise of multi ethnic churches could become the new Reformation in this century Yet the movement is in a pioneer stage and there have been few road maps until now

Planting Missional Churches Ed Stetzer, Daniel Im, 2016-05-01 In this second edition of Planting Missional Churches not only will you find a completely redesigned book with new content in every single chapter but you will also find several new chapters on topics such as church multiplication residencies multi ethnic ministry multisite denominations and networks and spiritual leadership

Doing Diaspora Missiology Toward "Diaspora Mission Church" Luther Jeom Ok Kim, 2016-01-05 In U S Population Projections 2005 2050 Pew Research Center reported that The nation's population will rise to 438 million in 2050 from 296 million in 2005 and fully 82% of the growth during this period will be due to immigrants arriving from 2005 to 2050 and their descendants This shows that it is essential to study and understand how our mission especially in the context of the USA called the nation of immigrants will respond to this huge mobility of immigrant diaspora

So far there has been emphasis on doing diaspora missiology however there is no practical implications and application in local church setting Now mission is next door which implies that the ministry of the local church should be emphasized for 21st contemporary mission This book provides detailed frameworks and methods of diaspora missiology within local churches called diaspora mission church According to the Bible all human beings are theologically and spiritually diaspora irrespective of ethnicity because they were banished from the Garden of Eden and scattered around the world in God s judgment Now they walk toward the encounter with Jesus Christ preach the gospel as the seed of Kingdom and finally move toward heaven

AND Hugh Halter,Matt Smay,2010-04-27 It s time to stop asking the old questions about how to do church better and instead ask how churches can more effectively participate in and grow God s kingdom **AND** helps Christian leaders recognize the best in different church models and see how to incorporate these values into a cohesive church movement By the numbers the American church enjoys the resources to profoundly impact the Kingdom But despite the rapid growth of these evangelical movements the church in the West is in decline A growing schism has emerged between the movement with a strong emphasis on attracting people and the more missional communities that focus on releasing people into ministry Church resource specialists Hugh Halter and Matt Smay have been observing these different church models and they challenge the idea that churches have to choose between them between the attractional and missional approaches to ministry With professional insight and practical advice Halter and Smay dial in on how to bring together the very best of the attractional **AND** missional models for church ministry by exploring The balance between gathering a community together **AND** scattering them into the world The harmony between centralization **AND** decentralization in church structure The mindset necessary to invest in both the traditional **AND** the innovative The drive to maintain both a vision for the future **AND** a depth of community for the present As churches begin to develop these **ANDs** they will be better positioned to influence the world according to the design of God instead of the whims of the people or the pride associated with production **Explore**

Alcohol and Temperance in Modern History: M-Z Jack S. Blocker (Jr.),2003 Publisher Description **Process Models and Theoretical Geomorphology** M. J. Kirkby,1994-03-08 Multinational contributors present articles on a wide range of themes but with important convergences of interest on critical topics A group of papers on tectonic and general approaches reviews the role of randomness in process models and provides a novel theoretical analysis of the relationships between tectonic and erosional forces Selections on channel processes reflect current interest in gravel bed rivers related to their widespread occurrence in mountain areas and in braided systems Articles on valley heads bring together views from several sometimes conflicting research approaches The final group of contributions illustrate the range of problems to which theoretical methods in geomorphology can now be applied **Dynamics of Gravel-bed Rivers** P. Billi,1992 Contains

articles by leading international experts in their respective fields Papers are grouped into 17 topics that cover fundamental and applied issues involving the considerable progress made on sediment transport dynamics Recent research provides insights into subjects such as selective entrainment equal mobility armouring processes transport of fine material mathematical sediment transport and morphological models as well as the impact of engineering works and catchment development projects on channel stability
