Anglicisms In The German Newsmagazines Focus And Der Spiegel:

Anglicisms in the German Newsmagazines "FOCUS" and "Der Spiegel" Katharina Hirmer, 2012-08-24 Seminar paper from the year 2011 in the subject English Language and Literature Studies Linguistics grade 1 7 University of Regensburg Institut für Anglistik und Amerikanistik course Hauptseminar Language Contact language English abstract The subject of English influencing the German language has become more and more obvious in the last decades particularly in the last few years The Deutsche Bahn DB is a very graphic example for this language fashion You buy your Tickets there at the Counter next to the Service Point and after you have taken the City Night Liner you can rent a bike from the Call a Bike program after having made a short rest in the DB Lounge But there occurred a lot of misunderstandings because of the new short term parking lots in front of railroad stations called Kiss Ride in January 2010 So the chairman of the DB Rüdiger Grube finally decided to reduce the amount of anglicisms at the DB in February 2010 Counters turned again into Schalter Tickets into Fahrkarten Call a Bike is now called Mietradservice der Deutschen Bahn again only established and well known terms like Bahncard and Intercity stayed the same Thus English has obviously a huge bearing on the German language especially in the field of facilities and advertising and above all on youth language You would definitely find a lot of anglicisms in youth literature youth magazines or youth series on TV You only have to glance at the cover of the BRAVO headings like Coole Ansage an seine Hater Neues Game Star Memory Romantische Dates or Kuscheln im Tourbus are not a rarity But how does this phenomenon look for example in German highbrow newsmagazines with the average German newsmagazine readership To find this out I have chosen two very popular German newsmagazines the FOCUS and Der Spiegel since the two of them represent pretty much the German highbrow newsmagazines I was interested in the question whether these two magazines also represent the mainstream fashion of using many anglicisms in their articles or not As there have already been a couple of studies on this topic especially concerning anglicisms in Der Spiegel there is also enough comparative data to refer to The latest work Alexander Onysko's Anglicisms in German about anglicisms in Der Spiegel was published in 2007 so it's really interesting to compare the results of this study with the data of this book to see possible changes or similarities

The Use of Anglicisms in the German Magazine FOCUS Nadja Grebe, 2010-11 Seminar paper from the year 2010 in the subject English Pedagogy Didactics Literature Studies grade 1 0 Ernst Moritz Arndt University of Greifswald Institut für Fremdsprachliche Philologien course Contact Linguistics language English abstract Most of all linguists who find themselves engaged in Contact Linguistics agree upon the fact that the influence of the English language on German is constantly increasing and has especially risen during the last decades of the 20th century cf Viereck 1980 11 Gtzeler 2008 58 59 Due to the close collaboration in the political and economical sector the contact between the two language regions has become more intense and has thus led to a higher frequency of borrowings from English As a direct consequence of this process a public discussion on the drawbacks of the use of anglicisms in German has started and found its peak in the foundation of the

Verein Deutsche Sprache formerly called the Verein zur Rettung der deutschen Sprache in 1997 cf G tzeler 2008 61 The increasing presence of loanwords as commonly believed as well as the ongoing public discussion on their use is reason enough to analyze the use of anglicisms in the German language by using the example of the German newsmagazine FOCUS In this context it shall be examined whether the frequency of anglicisms in 2009 is higher than the frequency in 1993 Furthermore as the corpus consists of texts from two different categories namely Deutschland and Modernes Leben numerical differences concerning those sections is also subject of the study As a result proof for the following theses is expected 1 The frequency of anglicisms used in 2009 is higher than in 1993 2 The number of borrowings in the section Modernes Leben will be greater than in the section Deutschland

Anglicisms in German Alexander Onysko, 2007 Offers a detailed account of the influence of English in German based on a large scale corpus analysis of the newsmagazine Der Spiegel This book presents a study that is structured into three parts each of which deals with fundamental questions and as of yet unsolved and disputed issues in the domain of anglicism research and language contact

Corpora and the History of English Christian Mair, Reinhard Heuberger, 2006 *Anglicisms in the German "Cosmopolitan" and in the German news magazine "Der Spiegel". A quantitative survey of lexical borrowing in the German language* Anica Wurmbrand, 2017-07-21 Seminar paper from the year 2016 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1 0 University of Würzburg language English abstract The following paper is a research on the quantitative use of Anglicisms in two German magazines The analysis will feature a selection of two issues of the German Cosmopolitan and Spiegel from December 2015 I chose these magazines because this type of material has not been considered in studies yet There are many researches about the usage of Anglicisms in Spiegel over the years or the integration of Anglicisms in advertisements found in magazines As there is a gap of statistics including the comparison of the number of Anglicisms in a news magazine and a lifestyle magazine I chose it to become the topic of this seminar paper Further this paper will analyze the usage of Anglicisms and their percentage distribution with regard to the different word classes First I will give a comprehensive overview over Thomason 2001 and Winford's 2003 2010 theories of language contact and borrowing Following that I will give some definitions concerning linguistic jargon and give samples of how Anglicisms are integrated into the German morphological and inflectional pattern The main part of this paper will be the evaluation of the data I collected and the comparison of the quantitative impact of Anglicisms in Cosmopolitan and Spiegel I conclude with a closer examination of the compounds found in the two magazines

The Collocational Behavior of Anglicisms in German and American Business and News Magazines Julia Sosnizka, 2014-05-27 In her dissertation Julia Sosnizka deals with the question whether and to what extent the collocational behavior of written Anglicisms in German resembles the collocational behavior of these word forms in the source language American English The study is empirically based on the 2008 volumes of the business magazines BusinessWeek and WirtschaftsWoche and the news magazines Newsweek and Der Spiegel This selection allows also for

statements about differences between the thematically specialized corpora and those that are closer to general language use. In total the research corpora comprise over nine million words. The study is inspired by the observation that Anglicisms are not only transferred as isolated word forms from English to German but that instead they may be borrowed along with their collocates. The author provides a broad overview on collocations which is treated very differently in the literature. In addition to the corpus linguistic approach she also discusses psycholinguistic and semantic models of collocations. The understanding of collocations for the present study is based on the statistically significant co occurrence of lexical word forms. The dissertation may be seen as a contribution to contrastive corpus linguistics collocation and genre research.

In ihrer Dissertation beschäftigt sich Julia Sosnizka mit der Frage ob und inwieweit das Kollokationsverhalten von geschriebenen Anglizismen im Deutschen dem Kollokationsverhalten dieser Wortformen in der Ursprungssprache amerikanisches Englisch entspricht. Als empirische Grundlage dienen die Jahrgänge 2008 der Nachrichtenmagazine Newsweek und Der Spiegel sowie der Wirtschaftsmagazine BusinessWeek und WirtschaftsWoche mit insgesamt über neun Millionen Wörtern. Diese Auswahl ermöglicht gleichzeitig Aussagen über Unterschiede zwischen thematisch spezialisierten Korpora und solchen die näher an der Allgemeinsprache sind. Die Arbeit ist inspiriert durch die Beobachtung dass nicht nur Wortformen aus dem Englischen ins Deutsche übernommen werden sondern auch deren Kollokate. Die Autorin gibt in der Arbeit einen umfassenden Überblick zum Thema Kollokationen welches in der Literatur sehr unterschiedlich behandelt wird. Neben dem korpuslinguistischen Ansatz erweitert sie auch psycholinguistische und semantische Erklärungsmodelle für Kollokationen. Das Verständnis von Kollokationen für die vorliegende Arbeit beruht auf statistisch signifikanter Kookkurrenz von lexikalischen Wortformen. Die Dissertation ist somit als ein Beitrag zur kontrastiven Korpuslinguistik Kollokations und Genreforschung zu sehen.

Anglicisms in the German language - in spite of linguistic purism? Nina Jeanette Hofferberth, 2013-07-01 Seminar paper from the year 2008 in the subject English Language and Literature Studies Linguistics grade 1.3 University of Frankfurt/Main Institut für England und Amerikastudien language English abstract. Pollmeier 1994 in Spitzmäller 2005: 117. Most linguists are consistent with the fact that German linguistic purism came to an end with the abolition of the Allgemeiner Deutscher Sprachverein ADSV in 1940. Pfalzgraf 2006: 9. Since the late 1990s however the debate about foreign words in German has become more intense. A number of politicians from all parties have recently criticized the overuse of Anglicisms. Furthermore there have been demands for a law to protect the German language as France did in 1975. Nationally supported associations as well as private organizations and internet homepages combat the so called flood of Anglicisms in German. In 1899 Hermann Dunger wrote an article on Wider die Engländerei in

der deutschen Sprache but the opposition to the English influence has existed since the 17th century *The attitudes towards anglicisms in German. A survey analysis focussing on age-related differences* Nico Röhrs, 2021-02-02 Seminar paper from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1.3 University of Bremen language English abstract This paper is concerned with the subject of anglicisms Anglicisms are lexical items which are transferred into our everyday language use They are surrounded by a constant debate about their necessity While linguists mostly appreciate their advantages linguistic purists regard them as a threat and try to remove or limit them Through analyzing a survey this study presents the attitudes towards anglicisms in German Thereby the influence the participants age has on their attitudes is especially focused on After setting the scene by giving an overview about already existing research on the spread of English anglicisms in German and linguistic purism the survey analysis shows that older generations attitudes towards anglicisms tend to be more negative As the paper focused on the social characteristic Age future studies could discuss the influence class affiliation or education has on the attitudes towards anglicisms *Anglicisms in German Advertising Slogans* Anna Theresa Wendel, 2014-08-26 Seminar paper from the year 2013 in the subject English Language and Literature Studies Linguistics grade 1.0 University of Trier language English abstract For quite some time advertising is a gateway for anglicisms into the German language The VDS Verein Deutscher Sprache Association of German Language also shares this opinion They say that the main transmitters for anglicisms in Germany are the mass media and the advertising and entertaining industry Although anglicisms belong to the most explored aspects of advertising language there haven't been many empirical studies yet Their proportion in a temporal comparative and in connection with various product groups is rarely studied in the German speaking area Especially the researches of Dagmar Schütte and the database slogans.de offer a basis to investigate these questions In this paper it will be mainly referred to slogans since they appear in every kind of media and because they are the main representatives of the trends in the advertising language First the evaluation of Schütte 1996 which reaches until 1991 should be checked Then it should be examined whether the increase of English slogans continues onwards in the 1990s and the 2000s Furthermore the sectoral distribution of English slogans will be analyzed In order to provide a prospect to the future this work will also contain a chapter about the new language trend in German advertising Schütte defines an anglicism as a linguistic sign consisting wholly or partly of English morphemes regardless of whether it is connected to a common meaning in the English language usage or not In the following this definition is adopted what means that the term anglicism is generally an English coined word or expression *To what extent are Anglicisms essential in German print advertisements?* Helen von Diergardt, 2018-09-11 Bachelor Thesis from the year 2018 in the subject Communications Specialized communication grade 1.0 Vienna University of Economics and Business Department for Foreign Languages language English abstract This thesis analyses both the omnipresence and importance of both Anglicisms in advertisement by assessing their extent for essentiality for German print advertisements The fashion and lifestyle magazine

InStyle was chosen as a representative in order to analyse the number of Anglicisms and their effects on the reader. The first section will deal with the influence of the English language on the German by defining the most critical terminology analysing the history of the English language in Germany and how it became so influential.

Anglicisms in the German Business Press Marc Rathmann, 2007. The debate about the use of Anglicisms in German during the past decade has focused primarily on general language use whereas languages for specific purposes with the exception of advertising have not come under similar scrutiny. The study presented in this book focuses exclusively on the English lexical influence on German business language over time and across different text types. Randomly selected articles cover stories, editorials and letters to the editor of one of Germany's major business magazines. *Wirtschaftswoche* serve as the corpus of this study. The author describes and analyzes the use of Anglicisms in this business weekly over a period of 30 years and answers questions such as the following:

4. Is there empirical evidence for an increasing use of Anglicisms in German business language appearing in print media?
5. Are there significant differences in the use of Anglicisms in the selected genres and do professional journalists and readers differ in their use of these loanwords?
6. Do opinion centered articles differ from fact centered articles in the use of English loanwords?
7. Which Anglicisms are used most often?

This book should be of interest not only to scholars in the fields of linguistics and language teaching but also to the general reader interested in Anglo American influences on German language and culture and English loanwords in particular.

The importance and influence of anglicisms in german language and audio-visual advertising Claudia Stehr, 2007-05-13. Seminar paper from the year 2002 in the subject English Language and Literature Studies Linguistics grade 1-3. Technical University of Braunschweig. Englisch Seminar course. Language in Advertisement language. English abstract. Language is not stable; it is a communication system used by human beings. As people and the environment they live in change and develop, it is natural for language to change and to get influenced as well. The amount of English words in the German language increased highly since 1945 and especially since advertising plays an important role in our society. After the second World War the connection between Germany and the Western world got stronger and more intensive than it had been before. Especially the areas media, literature, music and theatre but also politics, sports and economy have very high influences on the growing use of English words in German language. The German Academy of Language in Berlin says that no more than five per cent lexical amount of anglicisms are existing in the German language. That indeed is not much but this does not propose anything about how often these words are used in the every day language. There are no concrete guidelines or laws about the usage of Anglicisms and advertising agencies tend to plead that they only orientate on those English words which are already used by Germans. This has to be doubted thinking that the words mail, express, logistics, finance, Stimulating Facial Freshener or Concentrated Line Smoother are not always understood directly nor by many Germans. But the understanding of Anglicisms will not be the subject of this paper. In my research paper I want to point out which influence the English language has on the language of advertising and

how anglicisms are seen in our society I refer to the audio visual media TV advertisement and try to conclude about the importance and influence of Anglicisms in general In this paper the term Anglicism stands for English and American borrowings as well To supply evidence for my thesis I give and analyse a few examples of advertising spots from the German channel ARD and I also present my results of a questionnaire about Anglicisms in the German language which was filled in by 60 Germans At the beginning I want to go into the terms anglicism language of advertising and I point out the most important reasons for the usage of Anglicisms to give the reader a clear view in which way these terms have to be looked at and dealt with in this paper

Anglicisms in German Antje Holtmann, 2013-04-08 Studienarbeit aus dem Jahr 2012 im Fachbereich Anglistik Linguistik Note 1 7 Ernst Moritz Arndt Universität Greifswald Anglistik Veranstaltung Lexicology Sprache Deutsch Abstract Language contact however is a normal phenomenon and as a historical fact has been acknowledged since antiquity but not however as a phenomenon worthy of study But only in the last decades of the nineteenth century did questions of language contact become an area of scientific interest Oksaar 1996 If Svetlana 20 Most of the older studies focus on the synchronic aspects whereas newer studies also take a diachronic view into consideration cf Burmasova 10 Furthermore morphological and orthographic aspects play a role in addition of the frequency of use cf Burmasova 11 Nowadays there are a lot of critical voices which reject the use of anglicisms because they fear a loss of German language heritage There are even some initiatives providing equivalents for every English word The Verein deutscher Sprache Association of the German Language for instance emphasizes the importance of German equivalents Thus the question is whether it is possible to find equivalents for every anglicisms and if those equivalents are suitable Moreover the question arises if anglicisms are on the rise to an extent where they may threaten the German language In this term paper I want to take a closer look on the use of anglicisms in the press in order to find an answer to these questions In the course of this I want to refer to studies by NICOLE PLUMER ALEXANDRA ZURN and CHRISTIANE GOTZELER I also want to provide some samples from Stern and Bild and present my own results Before that a definition of the term anglicism will be given Moreover I want to take historical developments into consideration including German reactions to certain changes After that a classification of anglicisms will be provided in order to become aware of the different types Furthermore I want to present some linguistic changes connected to anglicisms Lastly I want to provide some considerations concerning the language of the press and present my own little study in this field before I come to my conclusion

Anglicisms and their Usage in the German Newspaper Die Zeit Madeleine Sailer, 2020-08-06 Bachelor Thesis from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 0 University of Innsbruck language English abstract In order to analyse the frequency of anglicism usage in the German language this paper analyses articles from the German newspaper Die Zeit Media and the press for instance mimic the use and competence of English words in the German language among German native speakers Therefore analysing newspaper articles is an efficient and effective way to demonstrate the spread

of anglicisms At the beginning of this thesis there is a general explanation of anglicisms This not only includes a definition but also further information on the different forms of anglicisms such as direct or indirect loan influences as well as hybrid anglicisms Moreover it illustrates the transmission processes with its parameters and the grammar of anglicism within the German language system Consequently this lexical productivity is summarized and the types of integration of anglicisms into the German lexicon are further evaluated This is then followed by a chapter that highlights diachronic aspects of integrating English borrowings into the German language and the motives of using these Subsequently it provides information on the impact it has on German and the reasons why some German linguists believe their language to be endangered The analysis in this paper encompasses a broad sample of 60 articles in total from six different news categories that were published between October 2019 and February 2020 on the online platform of the German newspaper Die Zeit Since Second World War the use of anglicisms in the German language has drastically increased and thus English words are borrowed more frequently Nowadays in the year 2020 one can confidently argue that nearly every German native speaker uses anglicisms in their everyday life Anglicisms in Russian and German Blogs Julia Balakina,2011 This investigation examines three languages English German and Russian Nowadays there is an acute awareness of the need to preserve the national language Therefore it is vital to find out how English loans are integrated into the systems of German and Russian Blogs were chosen for this analysis as the loans found in blogs belong to the vocabulary of the user Moreover it is almost always possible to glean some personal information about the author of a particular blog allowing socio linguistic analysis The results of the research demonstrate that the Internet language brings German and Russian closer to each other in general and in the way they treat borrowings in particular Here we can speak of globalization on the linguistic level
