**Leading the Common Core Initiative** Carl A. Harvey II,Linda L. Mills,2014-11-25 Defining both the

Common Core Standards and the school librarian's role in their implementation this book offers ready to use lesson plans and other tools for grades K-5 and identifies opportunities for collaborative teaching. As elementary schools in nearly all 50 states are faced with meeting the Common Core State Standards (CCSS) school librarians need to understand the challenges and have lesson plans ready to help. This resource introduces the CCSS in English and mathematics to K-5 librarians and aides helping them to understand the concepts, analyzing the impact on the school library and providing lesson plans, resources and other tools for implementation in integrated instruction with other curricula and collaborative teaching with other elementary teachers. Based upon the authors' own experiences in adopting the CCSS in their school, the included exemplar lesson plans and ideas are designed to support school librarians as they begin to collaborate with teachers in using the Common Core Standards in their daily classroom instruction. The book also discusses the opportunities for advocacy that result from the librarian's instrumental role in implementing the CCSS both as a staff developer and a collaborative partner teacher.

**Climate Change Education Across Disciplines K-12** Lauren Madden, 2025-02-15 Climate change is one of the greatest challenges humanity has ever faced. One of the most effective ways to combat climate change is education. In New Jersey standards to support teaching and learning about climate change were introduced for children of all ages beginning in 2022. In this edited volume experts from across the state offer strategies, suggestions, advice and vignettes to support educators as they begin to implement climate change instruction in their classrooms. With a foreword by our state's First Lady Tammy S. Murphy, it also includes a scientific perspective on the effects of climate change in New Jersey, the history of climate change education in the US and perspectives from colleagues in other states who are also beginning to adopt instructional practices to address this important topic.

**Assessing for Learning** Violet H. Harada, Joan M. Yoshina, 2010-10-21 In this book theory is blended with practical application to provide a concise, up-to-date explanation of how school librarians can work with students and teachers to assess for learning in 21st century schools. Co-authors Harada and Yoshina authored the first text that focused on learning assessment in a school library context. In this revised and expanded version of *Assessing for Learning*, Librarians and Teachers as Partners, they continue to shed light on the issue of school librarians helping students to assess for learning. The book begins with a brief discussion of national reform efforts and the importance of assessment for effective learning within this context. The balance of the book provides numerous strategies and tools for involving students as well as library media specialists in assessment activities, emphasizing the importance of students assessing for their own learning. It also provides specific examples of how assessment can be incorporated into various library related learning activities. All chapters in this second edition have been updated with additional information and three new chapters on assessing for critical thinking dispositions and tech related learning have been added.
