## **Animals And The Human Imagination A Companion To Animal Studies:**

**Animals and the Human Imagination** Aaron S. Gross, Anne Vallely, 2012-04-24 Human beings have long imagined their subjectivity ethics and ancestry with and through animals yet not until the mid twentieth century did contemporary thought reflect critically on animals significance in human self conception Thinkers such as French philosopher Jacques Derrida South African novelist J M Coetzee and American theorist Donna Haraway have initiated rigorous inquiries into the question of the animal now blossoming in a number of directions It is no longer strange to say that if animals did not exist we would have to invent them This interdisciplinary and cross cultural collection reflects the growth of animal studies as an independent field and the rise of animality as a critical lens through which to analyze society and culture on a par with race and gender Essays consider the role of animals in the human imagination and the imagination of the human the worldviews of indigenous peoples animal human mythology in early modern China and political uses of the animal in postcolonial India They engage with the theoretical underpinnings of the animal protection movement representations of animals in children s literature depictions of animals in contemporary art and the philosophical positioning of the animal from Aristotle to Derrida The strength of this companion lies in its timeliness and contextual diversity which makes it essential reading for students and researchers while further developing the parameters of the discipline     Beyond the Human-Animal Divide Dominik Ohrem, Roman Bartosch, 2017-11-21 This volume explores the potential of the concept of the creaturely for thinking and writing beyond the idea of a clear cut human animal divide presenting innovative perspectives and narratives for an age which increasingly confronts us with the profound ecological ethical and political challenges of a multispecies world The text explores written work such as Samuel Beckett s *Worstward Ho* and Michel Foucault s *The Order of Things* video media such as the film *Creature Comforts* and the video game *Into the Dead* and photography With chapters written by an international group of philosophers literary and cultural studies scholars historians and others the volume brings together established experts and forward thinking early career scholars to provide an interdisciplinary engagement with ways of thinking and writing the creaturely to establish a postanthropocentric sense of human animal relationality     Handbook of Historical Animal Studies Mieke Roscher, André Krebber, Brett Mizelle, 2021-06-08 The handbook provides a comprehensive evaluation of approaches topics and research areas of the rapidly developing field of Historical Animal Studies The so called animal turn specifically inspired new takes on writing history This upsurge in research has led to immense amounts of new empirical studies as well as approaches to historiography which this handbook aims to systemize     **Feral Animals in the American South** Abraham Gibson, 2016-08-30 This book retells American southern history from feral animals perspective examining social cultural and evolutionary consequences of domestication and feralization     *Representing the Modern Animal in Culture* Ziba Rashidian, 2014-10-02 Examining a wide range of works from *Gulliver s Travels* to *The Hunger Games* *Representing the Modern Animal in Culture* employs key theoretical apparatuses of Animal Studies to literary texts

Contributors address the multifarious modes of animal representation and the range of human animal interactions that have emerged in the past 300 years

**The Imaginary of Animals** Annabelle Dufourcq, 2021-07-29 This book explores the phenomenon of animal imagination and its profound power over the human imagination It examines the structural and ethical role that the human imagination must play to provide an interface between human subjectivity and the real cognitive capacities of animals The book offers a systematic study of the increasing importance of the metaphors the virtual and figures in contemporary animal studies It explores human animal and real imaginary dichotomies revealing them to be the source of oppressive cultural structures Through an analysis of creative playful and theatric enactments and mimicry of animal behaviors and communication the book establishes that human imagination is based on animal imagination This helps redefine our traditional knowledge about animals and presents new practices and ethical concerns in regard to the animals The book strongly contends that allowing imagination to play a role in our relation to animals will lead to the development of a more empathetic approach towards them Drawing on works in phenomenology contemporary animal philosophy as well as ethological evidence and biosemiotics this book is the first to rethink the traditional philosophical concepts of imagination images the imaginary and reality in the light of a zoocentric perspective It will appeal to philosophers scholars and students in the field of animal studies as well as anyone interested in human and non human imaginations

**Animals and Society** Margo DeMello, 2012 This textbook provides a full overview of human animal studies It focuses on the conceptual construction of animals in American culture and the way in which it reinforces and perpetuates hierarchical human relationships rooted in racism sexism and class privilege

**The Question of the Animal and Religion** Aaron S. Gross, 2014-12-02 Through an absorbing investigation into recent high profile scandals involving one of the largest kosher slaughterhouses in the world located unexpectedly in Postville Iowa Aaron S Gross makes a powerful case for elevating the category of the animal in the study of religion Major theorists have almost without exception approached religion as a phenomenon that radically marks humans off from other animals but Gross rejects this paradigm instead matching religion more closely with the life sciences to better theorize human nature Gross begins with a detailed account of the scandals at Agriprocessors and their significance for the American and international Jewish community He argues that without a proper theorization of animals and religion we cannot fully understand religiously and ethically motivated diets and how and why the events at Agriprocessors took place Subsequent chapters recognize the significance of animals to the study of religion in the work of Ernst Cassirer Emile Durkheim Mircea Eliade Jonathan Z Smith and Jacques Derrida and the value of indigenous peoples understanding of animals to the study of religion in our daily lives Gross concludes by extending the Agribusiness scandal to the activities at slaughterhouses of all kinds calling attention to the religiosity informing the regulation of secular slaughterhouses and its implications for our relationship with and self imagination through animals

**Journal of Folklore Research**, 2018      *The Animal Part* Mark Payne, 2010-10-15 How can literary imagination help us engage with the lives of other animals The question represents one of the liveliest areas of inquiry in the humanities and Mark Payne seeks to answer it by exploring the relationship between human beings and other animals in writings from antiquity to the present Ranging from ancient Greek poets to modernists like Ezra Pound and William Carlos Williams Payne considers how writers have used verse to communicate the experience of animal suffering created analogies between human and animal societies and imagined the kind of knowledge that would be possible if human beings could see themselves as animals see them *The Animal Part* also makes substantial contributions to the emerging discourse of the posthumanities Payne offers detailed accounts of the tenuousness of the idea of the human in ancient literature and philosophy and then goes on to argue that close reading must remain a central practice of literary study if posthumanism is to articulate its own prehistory For it is only through fine grained literary interpretation that we can recover the poetic thinking about animals that has always existed alongside philosophical constructions of the human In sum *The Animal Part* marks a breakthrough in animal studies and offers a significant contribution to comparative poetics      *Animals' Defender and Zoophilist*, 1905

**Livestock and Literature** Liza B. Bauer, 2024-08-08 This book explores the past and current traces that cows pigs chickens and other animals used by humans have left in Anglophone literary fiction In times of accelerated global warming an acute pandemic and breakthroughs in bioengineering practices discussions on how to rethink the relationships to these animals have become as heated as perhaps never before *Livestock and Literature* examines what literature has to contribute to these debates In particular it draws on counter narratives to so called livestock animals commodification in selected science and speculative fiction SF works from the twenty first century These texts imagine what if scenarios where livestock practice resistance transform into biotechnologically modified postanimal beings or live in close companionship to humans Via these three points of access the study delineates the formal and thematic strategies SF authors apply to challenge anthropocentric and speciesist thought patterns The aim is to shed light on how these alternative storyworlds expand readers understanding of the lives of farmed animals seeking insight into how literature shapes human animal relationships beyond the page      *The Zoophilist and Animals' Defender*, 1904      **Animal Alterity** Sherryl Vint, 2010-04-21 *Animal Alterity* uses readings of science fiction texts to explore the centrality of animals for our ways of thinking about human It argues that the academic field of animal studies and the popular genre of science fiction share a number a critical concerns thinking about otherness and the nature of human being desiring communication across species difference and interrogating the social and ethical consequences of changes in science and technology We are living in a complex set of contradictory and conflicting relations with non human animals This book maps this complex terrain arguing that we are better able to perceive options for a transformed politics if we perceive our various material relations with non human animals within a deeper understanding of
