Animals People A Novel:

Other Animals in Twenty-First Century Fiction Catherine Parry, 2017-07-19 This book is about ordinary animals and how they are imagined in twenty first century fiction Examining contemporary animal representations and the fraught and potent distinctions humans fashion between themselves and all other animals it asks how a range of novels make re make or un make traditional conceptions of the creatures we love admire eat vilify and abuse Other Animals detailed readings of horses an animalised human a donkey ants chickens and chimpanzees develop new critical practices in Literary Animal Studies They explore the connections between fictional animal representation narrative form ethics and the lives and warm bodies of the real world creatures that precede and exceed our imagination Human animal relationships are conditioned by our imaginative shapings of other animals and by our sense of distinction from them and Other Animals opens out how fictional animal forms and tropes respond to participate in or challenge the ways animals lives are lived out in consequence of human imaginings of them *Neoliberalism and Young Adult Fiction* Sean P. Connors, Roberta Seelinger

Trites, 2025-03-17 In the twenty first century the influence of neoliberalism the belief that society benefits when both individuals and corporations are free to maximize their talents in the service of responding to social needs and problems resonates through all domains of human life And yet little critical study has been given to the reproduction of a neoliberal social order in YA literature *Neoliberalism and Young Adult Fiction* Exceptionalism Erasure examines how some YA literature naturalizes neoliberalism in positioning teenagers as self enclosed competitive individuals At the same time however the authors also examine other YA novels as potential sites of resistance that acknowledge teenagers agency to reject neoliberalism s destructive impulses and to work for social justice and equality through collective action With that in mind the authors of *Neoliberalism and Young Adult Fiction* analyze such concepts as how the exceptionality of specific characters who embody neoliberal ideals leads to self enclosed individualism and how environmental exploitation and consumerism lead to destructive effects The book progresses to an in depth examination of how racism undergirds US neoliberalism and environmental exploitation From scrutinizing racism and the rejection of neoliberalism inherent in the antiracism movement the study turns to an examination of gender specifically focusing on the relationship between sexism exploitation and embodied rejections of patriarchal thinking Indeed erasure is implicated in racism sexism and all forms of discrimination that are borne of exploitation Finally youth activism with its rejection of neoliberal ideologies leads to a culminating chapter about how global youth link YA literature to their protest movements [National Conference on Local Color Literature](#) Dr.S.Prabahar, *Ecocritical Geopolitics* Elena dell'Agnese, 2021-05-26 What is the role of popular culture in shaping our discourse about the multifaceted system of material things subjects and causal agents that we call environment *Ecocritical Geopolitics* offers a new theoretical perspective and approach to the analysis of environmental discourse in popular culture It combines ecocritical and critical geopolitical approaches to explore three main themes

dystopian visions the relationship between the human post human and nature and speciesism and carnism The importance of popular culture in the construction of geopolitical discourse is widely recognized From ecocriticism we also appreciate that literature cinema or theatre can offer a mirror of what the individual author wants to communicate about the relationship between the human being and what can be defined as non human This book provides an analysis of environmental discourses with the theoretical tools of critical geopolitics and the analytical methodology of ecocriticism It develops and disseminates a new scientific approach defined as ecocritical geopolitics to offer an idea of the power of popular culture in the realization of environmental discourse Referencing sources as diverse as *The Road* *The Shape of Water* *Lady and the Tramp* and *TV cooking shows* this book will be of great interest to students and scholars of geography environmental studies film studies and environmental humanities *Women and Fairness* Eva Lambertsson Björk, Jutta Eschenbach, Johanna M.

Wagner, 2021-05-07 This collection brings together scholars from various disciplines to ask fundamental questions concerning how women handle the manifold impediments placed before them as they simply attempt to live full human lives The collection explores narratives of women real and fictional who fight against these barriers who succumb to them who remain unaware of them or choose to ignore them It explores the ways we read women in cultural production and how women are read in society We assert the obstacles constructed into the very fabric of societies against fifty percent of the population are unfair be they hindrances for women to attain their goals encumbrances that limit women's speech and societal participation communal and artistic or hindrances that prohibit specific behaviors and images of women **A**
