Since its publication nearly one million students have used this legendary text. Suitable for either classroom use or self-paced study, it uses innovative discussions, cartoons, anecdotes, examples, and exercises that unfailingly capture and hold student interest. This edition is the Jacobs for a new generation. It has all the features that have kept the text in class by itself for nearly 3 decades all in a thoroughly revised full color presentation that shows today's students how fun geometry can be. The text remains proof based although the presentation is in the less formal paragraph format. The approach focuses on guided discovery to help students develop geometric intuition.
