THE ODYSSEY

Creating Meaning

Imagine you board the remains of one of Columbus's soldiers. They include a personal account of their experiences including thoughts and feelings. Comments are from the anonymous.

By the gods, it's hard to hear! I wish they'd hurry up and stop so we can hear the promised revelation...

...the world is not as it seems to be. It is not a place where you can go and find everything you need. It is a place where you have to learn to live with what you have.

American Odyssey Answer Sheet:

Education for Upward Mobility Michael J. Petrilli, 2015-12-08 This book seeks answers to a fundamental question perhaps one of the most important questions in America today How can we help children born into poverty transcend their disadvantages and enter the middle class as adults And in particular what role can our schools play There s little doubt that education and opportunity are tightly joined in the twenty first century economy Almost every week brings a new study demonstrating that highly skilled workers are being rewarded with stronger pay and excellent working conditions while Americans with few skills are struggling mightily Expanding educational achievement then appears to be a clear route to expanding economic opportunity Yet much of our public discourse ends there Of course more young Americans need better education in order to succeed But what kind of education Is the goal college for all What do we mean by college Do our young people mostly need a strong foundation in academics What about so called non cognitive skills Should technical education make a comeback Education for Upward Mobility provides fresh perspectives and concrete ideas for policymakers at every level of government for leaders and policy analysts in education reform organizations in the states and in Washington for philanthropists and membership associations and for local superintendents and school board members It combines the latest research evidence on relevant topics with in depth explorations of promising practices on the ground in real places achieving real successes
