Be My Guest CONRAD AUTOR HILTON,1984 **The Hiltons** J. Randy Taraborrelli,2014-04-01 The Hiltons is a sweeping saga of the success and excess of an iconic American family Demanding and enigmatic patriarch Conrad Hilton s visionary ideas and unyielding will established the model for the modern luxury hotel industry But outside the boardroom Conrad struggled with emotional detachment failed marriages and conflicted Catholicism Then there were his children Playboy Nicky Hilton s tragic alcoholism and marriage to Elizabeth Taylor was the stuff of tabloid legend Barron Hilton on the other hand deftly handled his father s legacy carrying the Hilton brand triumphantly into the new millennium Eric raised apart from his older brothers accepted his supporting role in the Hilton dynasty with calm and quiet a stark contrast to the boys much younger half sister Francesca whose battle for recognition led her into courtrooms and conflict The cast of supporting players includes the inimitable Zsa Zsa Gabor who was married to Conrad briefly and remained a thorn in his side for decades and a host of other Hollywood and business luminaries with whom the Hiltons crossed paths and swords over the years

Building the Cold War Annabel Jane Wharton,2001 In postwar Europe and the Middle East Hilton hotels were quite literally little Americas For American businessmen and tourists a Hilton Hotel with the comfortable familiarity of an English speaking staff a restaurant that served cheeseburgers and milkshakes trans Atlantic telephone lines and most important air conditioned modernity offered a respite from the disturbingly alien For impoverished local populations these same features lent the Hilton a utopian aura The Hilton was a space of luxury and desire a space that realized permanently and prominently the new and powerful presence of the United States Building the Cold War examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States Between 1953 and 1966 Hilton International built sixteen luxury hotels abroad Often the Hilton was the first significant modern structure in the host

city as well as its finest hotel The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul Cairo Athens and Jerusalem where the impact of its new architecture was amplified by the hotel's unprecedented siting and scale Even in cities familiar with the Modern the new Hilton often dominated the urban landscape with its height changing the look of the city The London Hilton on Park Lane for example was the first structure in London that was higher than St Paul's cathedral In his autobiography Conrad N Hilton claimed that these hotels were constructed for profit and for political impact an integral part of my dream was to show the countries most exposed to Communism the other side of the coin the fruits of the free world Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities Wharton offers a theoretically sophisticated critique of one of the Cold War's first international businesses and demonstrates that the Hilton's role in the struggle against Communism was as significant though in ways that he could not have imagined Many of these postwar Hiltons still flourish Those who stay in them will learn a great deal about their experience from this new assessment of hotel space

[Hotels and Highways](#) Begüm Adalet,2018-04-17 The early decades of the Cold War presented seemingly boundless opportunity for the construction of laboratories of American society abroad microcosms where experts could scale down problems of geopolitics to manageable size and where locals could be systematically directed toward American visions of capitalist modernity Among the most critical tools in the U.S.'s ideological arsenal was modernization theory and Turkey emerged as a vital test case for the construction and validation of developmental thought and practice With this book Begüm Adalet reveals how Turkey became both the archetypal model of modernization and an active partner for its enactment Through her analysis of the flow of aid money and expertise between the U.S. and Turkey the planning of the American funded Turkish highway network and the development of the Turkish tourism industry Adalet also highlights how problems of knowledge are fundamentally entwined with problems of the political order social scientific theories are produced in material spaces through uncertain encounters between transnational actors and policy networks In tracking the growth and transmission of modernization as a theory and in practice in Turkey Hotels and Highways offers not only a specific history of a postwar development model that continues to influence our world but a widely relevant consideration of how theoretical debates take shape in concrete situations
