Upng 2015 Application Form:

An Interdisciplinary Approach for Disaster Resilience and Sustainability Indrajit Pal, Jason von Meding, Sangam Shrestha, Iftexhar Ahmed, Thayaparan Gajendran, 2019-10-17 This book includes selected papers presented at the international expert forum on Mainstreaming Resilience and Disaster Risk Reduction in Education held at the Asian Institute of Technology Thailand on 12 December 2017. The journey towards disaster risk reduction and resilience requires the participation of a wide array of stakeholders ranging from academics to policymakers to disaster managers. Given the multifaceted and interdependent nature of disasters, disaster risk reduction and resilience require a multidisciplinary problem-solving approach and evidence-based techniques from the natural social engineering and other relevant sciences. Traditionally, hazard and disaster-related studies have been dominated by the engineering and social science fields. In this regard, the main purpose of this book is to capture the multidisciplinary and multisectoral nature of disaster risk reduction and to gather existing data, research, conceptual work, and practical cases regarding risk reduction and its ties to sustainable development under a single umbrella. Along with the sustainability aspect, the book also links disaster risk reduction with development, technology, governance, education, and climate change and includes discussions on challenges, solutions, and best practices in the mainstreaming of disaster risk reduction.
