## Year 5 Optional Sats:

Consulting Pupils Julia Flutter, Jean Rudduck, 2004-03-04 Consulting Pupils considers the potential benefits and implications of talking to students about teaching and learning in school exploring its impact at different levels Key issues included are the importance of engaging young learners in a focused dialogue about learning the role of pupil consultation in helping schools to develop new directions for improvement the wider implications of pupil consultation and participation in teaching the principles of citizenship and democracy Through examples of pupil consultation initiatives in primary and secondary schools the authors demonstrate how an agenda for change based on pupils perspectives on teaching and learning can be used to improve classroom practice Part of the What's In It For Schools series aimed at making educational policy issues relevant to practitioners this book will be a valuable resource for practitioners students and researchers interested in exploring pupils perspectives on teaching and learning

**Dialogue and the Development of Children's Thinking** Neil Mercer, Karen Littleton, 2007-06-22 This book draws on extensive research to provide a ground breaking new account of the relationship between dialogue and children's learning development It closely relates the research findings to real life classrooms so that it is of practical value to teachers and students concerned that their children are offered the best possible learning opportunities The authors provide a clear accessible and well illustrated case for the importance of dialogue in children's intellectual development and support this with a new and more educationally relevant version of socio cultural theory which explains the fascinating relationship between dialogues and learning In educational terms a sociocultural theory that relates social cultural and historical processes interpersonal communication and applied linguistics is an ideal way of explaining how school experience helps children learn and develop By using evidence of how the collective construction of knowledge is achieved and how engagement in dialogues shapes children's educational progress and intellectual development the authors provide a text which is essential for educational researchers postgraduate students of education and teachers and is also of interest to many psychologists and applied linguists
