## Academy Life Jackets:

*Religion and Social Change* Gerhard Falk, 2018-12-01 Despite America's famous separation of Church and State religion obviously holds an enormous influence on nearly all aspects of society. Prof Falk looks at major traditional religious groupings in the US and discusses how they influence the family, education, government, the economy, philanthropy, violence, music and the media. Western society is becoming less religious, more secular every day as science answers some of the profound questions that inspired a belief in the supernatural. But society requires more than the laws of physics to hold it together of course and so far religion is the institution that has provided the most clear cut moral guidelines even for non-believers. Religion has also inspired many of our greatest artistic endeavors. But religion can also be used for crass commercial interests or worse to divide people and fuel violence. Drawing parallels and contrasts between Catholicism, mainline Protestantism and Judaism, Dr Falk talks about history and philosophy, political campaigns, social movements, popular music, literature and life. He shows how religious traditions influence us and how they impact politics, social stratification and even the military.

Suddenly Overboard tells stories about sailors who experienced catastrophes when least expecting them and who were rescued or who died or who lived to tell the tale simply by good luck. These tales will make you think if these are the ways most sailors actually die then what if I were in that situation. These true life stories are told in compelling short narratives with an insider's analysis of what contributed to the accidents so you know what not to do or what to look out for when you are on the water. You will learn important topics such as decision making under stress and the role of emotions in accident survival. The book also includes an exclusive interview with Gary Jobson, president of US Sailing.
