review from Meded101 will help you pass your exam and become a Board Certified Geriatric Pharmacist I've worked my entire career in geriatrics and wanted to share some of that clinical knowledge with you as well as provide you an incredibly valuable study guide. Studying for a pharmacist board certification exam can be overwhelming. It's likely been a few years since you've taken an exam and the last thing you want to do is fail. The next to last thing you want to do is to try to find 3-6 months to study for the exam. As a father with two small children I realize how valuable time is. What was frustrating to me about preparing for the Board Certified Geriatric Pharmacist (BCGP) exam formerly the Certified Geriatric Pharmacist (CGP) exam as well as the BCPS exam was that the study material was not to the point. I felt like I needed to read thousands of pages to be adequately prepared. Recognizing that challenge of time management as a busy professional I wanted to create the ultimate review for the BCGP exam that won't take you months to get through. I wanted to give you the most important bullet points you need to know to best prepare for the exam. I utilized the BCGP outline to create this study guide. It breaks down nearly 80 of the most important geriatric disease states. In this breakdown I include information about the signs and symptoms, complications, risk factors, and of course the main drugs of therapy for each disease. I also break down the most important clinical pearls from the drugs of choice for each disease state. Within the medications to know breakdown for each disease state you will find clinical pearls, important adverse effects, drug disease and drug drug interaction information, and essential compelling indications. While this review specifically follows the content outline for the BCGP CGP exam pharmacists seeking Board Certification in Pharmacotherapy (BCPS) or those seeking Board Certification in Ambulatory Care (BCACP) may also benefit from the clinical information within this study guide. The Board Certified Geriatric Pharmacist, Board Certified Pharmacotherapy Specialist, and Board Certified Ambulatory Care Pharmacist are designations from the Board of Pharmacy Specialties (BPS). The contents contained within this study guide are not affiliated or endorsed by BPS.

Pharmacotherapy Principles and Practice Study Guide, Fourth Edition Michael D. Katz, Kathryn R. Matthias, Marie A. Chisholm-Burns, 2016-11-22. A unique case based approach to learning how to apply pharmacotherapeutic concepts to specific patient situations. A Doody's Core Title for 2017. *Pharmacotherapy Principles and Practice Study Guide* Fourth Edition delivers more than 100 patient cases that correspond to chapters in the Fourth Edition of *Pharmacotherapy Principles and Practice*. These cases are presented in a consistent manner similar to what you would see in a clinical setting and focus on a specific topic or disorder. For each case you are asked to develop a Patient Database, Drug Therapy Problem Worksheet, and Pharmacotherapy Care Plan using the forms provided. With *Pharmacotherapy Principles and Practice Study Guide* you will learn how to navigate through the process of applying your knowledge of pharmacotherapy to specific patient cases by organizing patient data to logically assess a patient's medication issues and formulate a sound pharmacotherapy care plan. EACH CASE INCLUDES Patient Presentation, Medical History, Physical Examination, Targeted Questions, Follow Up, and Global Perspective which highlights an issue related to the case that is important to countries outside of North America or
