Adventure Devils Foot Annotated:

The Adventure of the Devil's Foot Sir Arthur Conan Doyle, 2021-01-12 The Adventure of the Devil's Foot is one of the 56 Sherlock Holmes short stories written by Arthur Conan Doyle. It is one of eight stories in the cycle collected as *His Last Bow*.

The Adventure of the Devil's Foot (Annotated) Sir Arthur Conan Doyle, 2021-04-21 In recording from time to time some of the curious experiences and interesting recollections which I associate with my long and intimate friendship with Mr Sherlock Holmes I have continually been faced by difficulties caused by his own aversion to publicity. To his sombre and cynical spirit all popular applause was always abhorrent and nothing amused him more at the end of a successful case than to hand over the actual exposure to some orthodox official and to listen with a mocking smile to the general chorus of misplaced congratulation. It was indeed this attitude upon the part of my friend and certainly not any lack of interesting material which has caused me of late years to lay very few of my records before the public. My participation in some of his adventures was always a privilege which entailed discretion and reticence upon me. It was then with considerable surprise that I received a telegram from Holmes last Tuesday he has never been known to write where a telegram would serve in the following terms.

Detective's Companion in Crime Fiction Lucy Andrew, Samuel Saunders, 2021-07-24 This book aims to establish the position of the sidekick character in the crime and detective fiction literary genres It re-evaluates the traditional view that the sidekick character in these genres is often overlooked as having a small generic or singular role either to act as the foil to the detective in order to accentuate their own abilities at solving crimes or else to simply tell the story to the reader Instead essays in the collection explore the representations and functions of the detective's sidekick across a range of forms and subgenres of crime fiction By incorporating forms such as children's detective fiction comics and graphic novels and film and television alongside the more traditional fare of novels and short stories this book aims to break down the boundaries that sometimes exist between these forms using the sidekick as a defining thread to link them together into a wider conceptual argument that covers a broad range of crime narratives **Encyclopedia of Library and Information Science** Allen

Arthur Conan Doyle, 2025-01-12 There's an east wind coming such a wind as never blew on England yet Arthur Conan Doyle's His Last Bow features a selection of Sherlock Holmes stories written at a time of growing tensions in Europe First published as a collection in 1917 against the backdrop of the First World War the volume covers tales that deviate from the pattern of earlier Sherlock adventures which focus on individual culpability and the comfort of a simplistic restoration of order The titular story in this collection was influenced by Doyle's personal experience of the war and in these tales the solutions to seemingly small scale local mysteries uncover crimes concerning national security or even expose the covert evil actions of organizations and powerful dictators This edition contains a new introduction by Trish Ferguson which offers a richly

detailed contextual backdrop for understanding the work as an act of war service designed to offer a morale boost to both British troops abroad and readers at home

Black Athena: The fabrication of ancient Greece, 1785-1985 Martin Bernal, 1987 Could Greek philosophy be rooted in Egyptian thought Is it possible that the Pythagorean theory was conceived on the shores of the Nile and the Euphrates rather than in ancient Greece Could it be that Western civilization was born on the so called Dark Continent For almost two centuries Western scholars have given little credence to the possibility of such scenarios In *Black Athena* an audacious three volume series that strikes at the heart of today's most heated culture wars Martin Bernal challenges Eurocentric attitudes by calling into question two of the longest established explanations for the origins of classical civilization The Aryan Model which is current today claims that Greek culture arose as the result of the conquest from the north by Indo European speakers or Aryans of the native pre Hellenes The Ancient Model which was maintained in Classical Greece held that the native population of Greece had initially been civilized by Egyptian and Phoenician colonists and that additional Near Eastern culture had been introduced to Greece by Greeks studying in Egypt and Southwest Asia Moving beyond these prevailing models Bernal proposes a Revised Ancient Model which suggests that classical civilization in fact had deep roots in Afroasiatic cultures This long awaited third and final volume of the series is concerned with the linguistic evidence that contradicts the Aryan Model of ancient Greece Bernal shows how nearly 40 percent of the Greek vocabulary has been plausibly derived from two Afroasiatic languages Ancient Egyptian and West Semitic He also reveals how these derivations are not limited to matters of trade but extended to the sophisticated language of politics religion and

philosophy This evidence according to Bernal confirms the fact that in Greece an Indo European people was culturally dominated by speakers of Ancient Egyptian and West Semitic Provocative passionate and colossal in scope this volume caps a thoughtful rewriting of history that has been stirring academic and political controversy since the publication of the first volume **Black Athena** Martin Bernal,1987 **Chicorel Index to Short Stories in Anthologies and Collections** Marietta Chicorel,1974 **Chicorel Index to Short Stories in Anthologies and Collections** ,1974 **The Man Who Created Sherlock Holmes** Andrew Lycett,2008-11-18 Though Sir Arthur Conan Doyle s name is recognized the world over for decades the man himself has been overshadowed by his better understood creation Sherlock Holmes who has become one of literature s most enduring characters Based on thousands of previously unavailable documents Andrew Lycett author of the critically acclaimed biography Dylan Thomas offers the first definitive biography of the baffling Conan Doyle finally making sense of a long standing mystery how the scientifically minded creator of the world s most rational detective himself succumbed to an avid belief in spiritualism including communication with the dead Conan Doyle was a man of many contradictions Always romantic energetic idealistic and upstanding he could also be selfish and fool hardy Lycett assembles the many threads of Conan Doyle s life including the lasting impact of his domineering mother and his wayward alcoholic father his affair with a younger woman while his wife lay dying and his nearly fanatical pursuit of scientific data to prove and explain various supernatural phenomena Lycett reveals the evolution of Conan Doyle s nature and ideas against the backdrop of his intense personal life wider society and the intellectual ferment of his age In response to the dramatic scientific and social transformations at the turn of the century he rejected traditional religious faith in favor of psychics and s ances and in this way he embodied all of his late Victorian early Edwardian era s ambivalence about the advance of science and the decline of religion The first biographer to gain access to Conan Doyle s newly released personal archive which includes correspondence diaries original manuscripts and more Lycett combines assiduous research with penetrating insight to offer the most comprehensive lucid and sympathetic portrait yet of Conan Doyle s personal journey from student to doctor from world famous author to ardent spiritualist The Sherlockian Star Chamber Steve Clarkson,1996 *Among Our Books* Carnegie Library of Pittsburgh,1918 **Catalogue of Copyright Entries** ,1911 **The Detective Short Story** E.
