

A large black crow is shown in silhouette, flying horizontally across the upper half of the image. Its wings are spread, and its tail feathers are visible. Below the crow, a small American flag is seen flying on a pole. The background is a dark, stormy sky with heavy, grey clouds. A bright, yellowish-green light source, possibly the sun or moon, is partially obscured by the clouds in the lower center. The overall mood is ominous and dramatic.

Big Slide By James Howard Kunstler:

Big Slide James Kunstler, 2018-04-05 *Big Slide* is a three act stage play In a moment of unprecedented national political upheaval members of the large Freeman family flee New York and Boston and take refuge in their Adirondack mountain mansion called Big Slide The electricity is down and the Internet with it Cities have been bombed and trouble has even come to these mountains where extremist self styled regulators are hunting down the rich and privileged Big Slide is old school rousing heart pounding theater

Big Slide James Howard Kunstler, 2010-08-13 **Adirondack Life** , 1989 *Ecology and Revolution* C. Boggs, 2012-09-06 *Ecology and Revolution* Global Crisis and the Political Challenge is an in depth exploration and analysis of the global ecological crisis going far beyond the issue of global warming in the larger context of historical conditions and political options shaped by the failure and incapacity of the existing political system to adequately confront the crisis

America, History and Life , 1991 *Taking the High Road* David B Reynolds, 2016-09-16 This book presents a vision for farreaching economic change in America connected to practical grassroots steps It points to an economic system in which corporate success merges with the long term welfare of the workers and the general population The author examines the continued reality of social democracy in Europe and what lessons can be learned for the U S He demonstrates how progressive economic change is already being fought for by labor and community groups throughout America in such efforts as the Living Wage Movement and the emerging battle against sprawl And he provides a wealth of concrete examples tools and ideas that everyone can use to organize for economic and social justice in their own communities

River of Mountains Peter Lourie, 2023-11-15 Lourie completed his trip It took him three weeks and marked the first time anyone has traveled from the source of the Hudson to the mouth in a single vessel The Hudson proved to be a very changeable river It includes seven locks and nine power dams The northern half is a true river with strong current but the lower half is tidal a sunken river from the days of glaciers In its first 165 miles it drops more than 4 000 feet to Albany The second half falls no more than a foot Lourie s account of his trip is a fresh look at one of America s great and complex waterways one of the few in fact that still contains its historical and biological species of fish It is also the longest inland estuary in the world Henry Hudson called it the great river of the mountains Nowadays too often the Hudson is stereotyped as a ruined polluted industrial river Its glorious past is compared to its present neglect In *River of Mountains* Peter Lourie combines the Hudson s rich history and descriptions of some of the region s most impressive landscape with the residents of its mill towns the loggers commercial fishermen and barge pilots all of whom are proof that the river is still a thriving vital waterway So come with Peter Lourie on his trip come explore with him from a canoe one of this country s great rivers join him in his wonderful adventure

The Geography of Nowhere James Howard Kunstler,1993 Kunstler traces America s evolution from a land of village commons to a nation of main streets to a world reshaped by the automobile and explains how developers deliberately replace community with consumerism creating a man made landscape that ignores the needs of humans and nature

A to Zoo Carolyn W. Lima,John A. Lima,2006 Presents a guide to nearly 27 000 children s picture book titles grouped in over 1 200 subjects and indexed by author title and illustrator

Home from Nowhere James Howard Kunstler,1996 In Home from Nowhere Kunstler explores the growing movement across America to restore the physical dwelling place of our civilization Picking up where The Geography of Nowhere left off Kunstler describes precisely how the American Dream of a little cottage in a natural landscape mutated into today s sprawling automobile suburb in all its ghastliness and why we are going to run shrieking from it to a better world He locates in our national psychology the origin of Americans traditional dislike for city life and what this implies about our ability to get along with one another Most important Home from Nowhere offers real hope for a nation yearning to live in authentic places worth caring about Kunstler calls for a wholehearted restoration of traditional architecture and town planning based on enduring principles of design He declares that the public realm matters and that it must be honored and embellished in order to make civic life possible He argues that the idea of beauty must be readmitted to intellectual respectability From Seaside on the Florida panhandle a bold experiment to create a radically better form of land development to the reclamation of inner city neighborhoods Kunstler documents the movement to revive American communities and a shared sense of place presenting the crisis of our landscape and townscape that is at the center of the debate about this nation s future
