Cornwall,2016-05-13 This is a study guide on marriage Discussions include covenant vs contract concepts of biblical marriage loneliness and looking for a mate the realities of divorce and family in the larger community I titled the study guide Marriage in Interesting Times because we are living at a time when profound changes in the way marriage is understood Not that long ago it was assumed by many in American society that traditional marriage not only involved a man and a woman but the man was the head of the household and the woman was a homemaker The man earned the money and the woman cared for the children and kept the house in order Then came the idea that husband and wife were equal partners in the marriage In most cases both partners worked outside the home and they shared more equally the duties of the home Today the definition of marriage has evolved one more time to include same sex couples So when we talk about marriage in the twenty first century at least in the United States and a number of other nations around the globe we must remember that the legal definition if not the religious one includes both gay and straight couples Yes these are interesting times Dr Bob Cornwall It is the hope of both Dr Cornwall and Energion Publications that there will be more dialogue during this study and less diatribes Marriage and the Family Dallas Theological Seminary.
