**Pediatric Nursing** Susan Scott Ricci,Terri Kyle,2009 Authors Susan Ricci and Terri Kyle have teamed up to deliver a unique resource for your students to understand the health needs of women and children This new combination book Maternity and Pediatric Nursing will empower the reader to guide women and their children toward higher levels of wellness throughout the life cycle The textbook emphasizes how to anticipate identify and address common problems to allow timely evidence based interventions Features include unfolding case studies throughout each chapter multiple examples of critical thinking and an outstanding visual presentation with extensive illustrations depicting key concepts A bound in CD ROM and a companion Website include video clips and NCLEX style review questions *Core Curriculum for Maternal-Newborn Nursing E-Book* AWHONN,Susan Mattson,Judy E. Smith,2010-04-26 New evidence based practice content includes the latest research and best practice standards for maternal newborn patient care New National Institute of Child Health Human Development NICHD terminology fosters interdisciplinary communication and ensures greater accuracy and precision New patient safety and risk management strategies help in improving outcomes reducing complications and increasing patient safety New information on the latest assessment and monitoring devices describes new applications of technology and the resulting benefits to patient care

**Medicine Meets Virtual Reality 16** James D. Westwood,2008 We humans are tribal grouping ourselves by a multitude of criteria physical intellectual political emotional etc The Internet and its auxiliary technologies have enabled a novel dimension in tribal behavior during our recent past This growing connectivity begs the question will individuals and their communities come together to solve some very urgent global problems At MMVR we explore ways to harness information technology to solve healthcare problems and in the industrialized nations we are making progress In the developing world however things are more challenging Massive urban poverty fuels violence and misery Will global networking bring a convergence of individual and tribal problem solving Recently a barrel shaped water carrier that rolls along the ground was presented improving daily life for many people Also the One Laptop per Child project is a good example of how the industrialized nations can help the developing countries They produce durable and simple laptops which are inexpensive to produce At MMVR we focus on cutting edge medical technology which is generally pretty expensive While the benefits of innovation trickle downward from the privileged few to the broader masses we should expand this trickle into a flood Can breakthrough applications in stimulation visualization robotics and informatics engender tools as ingeniously as the water carrier or laptop With some extra creativity we can design better healthcare for the developing world too
