**Achieve Level 6 Mathematics Practice Questions Pupil Book** Hilary Koll, Rising Stars UK Ltd., Steve Mills, 2013-01-01    **Sat Attack Maths** Anne Frobisher, Len, 2004-12 SAT Attack Maths is the perfect 10 week revision programme for both independent and whole class maths teaching    **Understanding Primary Education** Penelope Harnett, 2007-12-17 Understanding Primary Education will help trainees and newly qualified teachers reflect on the professional decisions they need to make within their planning and classroom practice. The authors analyse key issues and policies within contemporary education through reference to research and pedagogical practice. They encourage readers to reflect on policy and practice and support them in articulating their own beliefs and values. A broad perspective of the curriculum is outlined with a focus on what curriculum breadth and balance looks like in practice. Readers are encouraged to consider questions such as What are the purposes of education? What values are important in a pluralist society and what values might we share? In what ways can children be encouraged to be active participants within their communities    Third validation compendium report Great Britain: National Audit Office, 2006-12-19 In 2004 the Government announced 110 Public Service Agreement (PSA) targets for 17 Departments covering the period 2005-08. PSA targets express the priority outcomes that Departments are seeking to achieve nationally and internationally and cover key aspects of the Government's social, economic and environmental policy. Large sums of public money are devoted to the programmes designed to deliver them. This NAO report contains the detailed results of its examination of the data systems used by six government departments to monitor and report progress against their 2005-08 PSA targets, covering a total of 65 data systems. The six Departments are the Cabinet Office, the Department for Culture, Media and Sport, the Department for Education and Skills, the Department for the Environment, Food and Rural Affairs, the Ministry of Defence and HM Treasury. Findings include that 75 per cent of the data systems used are broadly appropriate but less than half of these were fully fit for purpose. Most required some action to strengthen measurement or reporting arrangements. A companion volume HCP 127 (1 session 2006-07) ISBN 0102944040 is available separately, which contains the NAO's summarised findings    Resources in education, 1988-03

It shows that the treatment of pupils in schools makes more difference to teenagers' views on society and on what it means to be fair than it does to differences in attainment.
