Achieving Zero My Life And Love Of Consulting Engineering:

Achieving Zero David F, David Evans, David F Evans P E, 2013-01-14 David F Evans's memoir follows his career from his first job as a civil engineer through the founding and growth of his consulting engineering firm David Evans and Associates Inc. Evans details how the firm grew from two to over 900 people in spite of recessions, economic bubbles, and the technological transition from the drafting table and slide rule to the computer, and how the firm prepared carefully for a successful transition to the next generation of leaders. David Evans and Associates Inc. continues as one of the largest and most successful consulting engineering firms in the United States. David's lively, humorous, and compelling story is recommended reading for anyone considering a career as a consulting engineer. **Coming to America** Paul C. Ng, 2011 Everyone may agree that America is still the greatest country in the world. However, some may also argue that America is in decline. We are confronting huge problems such as government gridlocks, budget deficits, national debt, loss of jobs, energy dependence, discrimination, terrorism, wastes, and wars. This book helps us to identify all these and other problems and offers solutions. But we must have serious dialogue and debate before we can offer viable and concrete solutions. It is my hope that this book will help us to reinvigorate these efforts so we, as citizens of this great nation, can reclaim our rights to help shape our own destiny. With this book, you will also be able to learn some basic Chinese characters and get some advice on stock investment.
