Acids, Bases and Salts

You have learnt in your previous classes that the sour and bitter tastes of food are due to acids and bases present in them. If someone in the family is suffering from a symptom of acidity after overeating, which of the following substances can be used as a remedy- lemon juice, vinegar or baking soda solution?

Notes

- Which property did we learn about acids and bases? Surely you must have learnt that acids have a sour taste and bases have a bitter taste. So, which of the above substances can be used as a remedy?
