**Ricky Ponting's Captain's Diary 2007** Ricky Ponting,2010-04-01 From facing the old foe England to a World Cup campaign Australia's cricket captain charts his year In 2006-07 Ricky Ponting's Australian team achieved the first Ashes clean sweep in 86 years an experience Ponting described as the best of my cricketing life It featured stunning performances from men such as Shane Warne Adam Gilchrist and Andrew Symonds while the captain himself drew comparisons with Bradman following his hundreds in the opening two tests Yet immediately afterwards the Australians produced an even more commanding performance at the World Cup in the Caribbean Not even the bizarre ending to the final against Sri Lanka in near darkness after officials misinterpreted the playing conditions could hide the fact that this victory was one of the most dominant in Australian sporting history It was a season of triumph but also the last for some of Ponting's great teammates Warne Glenn McGrath Justin Langer and Damien Martyn and coach John Buchanan who all announced their retirements In Captain's Diary 2007 Ponting pays tribute to these men and in doing so reveals why they and the team he is privileged to captain are so special

Vartanian, 2011 This slim volume is one of a number of excellent guides published as part of Oxford's Pocket Guide to Social Work Research Methods series Compact but comprehensive it provides a thorough introduction to one of the fastest growing genres of research in the social work field today secondary data analysis After an all too brief summary of what constitutes this genre and a balanced analysis of its advantages and disadvantages Vartanian Bryn Mawr provides guidelines for those considering the feasibility and appropriateness of using secondary data in their work He then offers extensive summaries of 29 of the most commonly used secondary data sets For all of the data sets he provides a full and complete description including key characteristics and where and how to access them He also provides most valuably citations to examples of how researchers have recently used them in their empirical work Rather redundantly a similar package of information appears in appendixes at the end of the book This is an admirable contribution whose only detractions are the rather random and poorly identified screenshots and other pictures interspersed throughout the text Those seriously considering using secondary data analysis in their research should find this book immensely beneficial Summing Up Highly recommended Graduate students and faculty researchers Graduate Students Researchers Faculty Reviewed by J C Altman **Biography Today**, 2008

**Homework, Learning and Academic Success: The Role of Family and Contextual Variables** Antonio Valle, Susana Rodríguez, Pedro Rosário, Mar Lorenzo Moledo, 2020-02-24 The main purpose of this Research Topic is to analyze and identify the main family and contextual variables that are involved in the process of carrying out homework This will require studying the role played by teachers students and families in order to ensure that schoolwork is a useful learning tool Although the role of the student is obviously crucial in homework research has focused on the cumulative time spent by the student carrying out homework However the time spent on homework is not in itself evidence of the student's involvement nor is time spent indicative of quality time Indeed an excess of time can sometimes denote low competence in a field of knowledge while spending less time on homework could be indicative of high competence It is more likely that a high dedication of time spent on homework reflects high motivation or comprehension deficits rather than commitment to learning or academic motivation In tandem with the role of the student teachers as responsible for prescribing homework assignments for students also become central players in the process of completing homework assignments The decisions that teachers make about homework prescriptions and the amount and type of tasks they set will determine to a large extent the quality of the homework process including the student's motivation and the student's level of engagement with homework Furthermore the fact that homework is useful interesting and motivating for students will depend on how the teacher prescribes those tasks and the connection established with classroom learning Teacher feedback also acquires particular relevance for this point by helping the students to accurately estimate the quality of their progress and overcome the difficulties they may have encountered in carrying out their homework Lastly the effectiveness of teacher feedback depends on its contribution to the student's educational progress and how that student will perform in the future In addition to the student who performs the task and the teacher who prescribes and corrects it we must not lose sight of parents' role Although there are discrepancies regarding the role that parents play in relation to homework it is evident that their implication has important consequences not only on the final result of those tasks but also on the very process of carrying them out Everything seems to indicate that the family environment and more specifically the support and feedback provided by parents is a factor that can determine the involvement of students in school duties In this way providing emotional support encouraging children to get involved can contribute positively to improving their motivation and interest in the performance of homework The objective of this Research Topic is to provide researchers and professionals in psychology and education settings with some of the most recent empirical evidence regarding the homework process its prescription and correction Overall we aim to cease making

homework a source of conflict and controversy at the socio educational level in order to provide useful instruments for improving the quality of student learning This work was developed with the financing of the research projects EDU2013 44062 P MINECO EDU2017 82984 P MEIC **Jersey Bulletin and Dairy World** ,1927
