accountable to and how This book provides the first comprehensive examination of the issues and politics of NGO accountability across all sectors and internationally It offers an assessment of the key technical tools available including legal accountability certification and donor based accountability regimes and questions whether these are appropriate and viable options or attempts to roll back NGOs to a more one dimensional function as organizers of national and global charity Input and case studies are provided from NGOs such as ActionAid and from every part of the globe including China Indonesia and Uganda In the spirit of moving towards greater accountability the book looks in detail at innovations that have developed from within NGOs and offers new approaches and flexible frameworks that enable accountability to become a reality for all parties worldwide

Striking a Balance Alan Fowler,2013-10-11 At a time of rapid global change development NGOs are having to scale up their impact diversify their activities respond to long term crises and improve their performance on all fronts Striking a Balance offers both analysis and a practical guide to how NGDOs can fulfil these demanding expectations Written for all those involved with NGDO work the book describes the objectives of sustainablepeople centred development and the process required to achieve it focusing on the five factors which determine effectiveness suitable organisational design competent leadership and human resources appropriate external relationships mobilisation of high quality finance and the measurement

of performance coupled to learning for leverage In each are the book explains the capacities needed and how they can be assessed and improved Effectiveness calls for NGOs which retain their non profit values establish the right type of Professionalism manage dilemmas and balance choices to continually reflect the priorities rights and needs of those who give them legitimacy people who are poor and marginalised This book provides a reference of current and future practices which will help NGOs to do so International Accounting and Reporting Issues ,2003 **Nourish South Asia: Growing a better future for regional food justice** Swati Narayan, **Just Security in an Undergoverned World** William Durch,Joris Larik,Richard Ponzio,2018-01-19 Just Security in an Undergoverned World examines how humankind can manage global problems to achieve both security and justice in an age of antithesis Global connectivity is increasing visibly and invisibly in trade finance culture and information helping to spur economic growth technological advance and greater understanding and freedom but global disconnects are growing as well Ubiquitous electronics rely on high value minerals scraped from the earth by miners kept poor by corruption and war People abandon burning states for the often indifferent welcome of wealthier lands whose people in turn draw into themselves Humanity's very success underwritten in large part by lighting up gigatons of long buried carbon for 200 years now threatens humanity's future The global governance institutions established after World War II to manage global threats especially the twin scourges of war and poverty have expanded in reach and impact while paradoxically losing the political support of some of their wealthiest and most powerful members Their problems mimic those of their members in struggling to adapt to new problems and maintain trust in norms and public bodies This volume argues however that a properly mandated managed and modernized global architecture offers unparalleled potential to midwife solutions to intractable issues from violent conflict and climate change to poverty and pandemic disease that transcend borders and the capacities of individual actors It offers just security as a new framework for charting innovating solutions and strategies for effective and essential global governance **When the Law is Not Enough** Christopher Tanner,Marianna Bicchieri,2014 The Mozambique land law provides statutory recognition of customary land rights and is considered one of the most progressive legislations in Africa However the law continues to face implementation challenges including the realization of equal rights for women and institutional reform Simply having a progressive law is not enough to bring about transformative change in a country Recognizing these challenges the Food and Agriculture Organization of the United Nations FAO developed a programme to support the legislation through the capacity development of both direct beneficiaries and those responsible for implementing it This publication presents an overview of how this programme developed and what it has achieved to date It highlights the lessons learned from this core element of FAO's long history of support to the land programme in Mozambique In particular the study discusses the challenges facing land and natural resources paralegals in Mozambique today and helps to define the parameters for programme assessment by looking at paralegals in different country contexts It describes how the programme has included training and capacity development

not just for NGO sponsored paralegals but also for district and local government level officials justice system officers and staff from public sectors working with land and natural resources Publisher website *Teaching International Content* Rosemary J. Link, Lynne M. Healy, 2005 ActionAid International Alnoor S. Ebrahim, Rachel Gordon, 2012 As a global NGO working in 45 countries ActionAid International aims to eradicate poverty by addressing its underlying causes such as injustice and inequality This case follows a series of radical transformations implemented by the organization s CEO Ramesh Singh a power shift from its headquarters in London to an international secretariat in Johannesburg a new federated governance structure that increases the influence of units in Africa and Asia and innovations in accountability and transparency to the poor communities with which it works But as Singh gets ready to step down after seven years he is confronted with challenges from newly empowered country units that he feels risk taking the organization in the wrong direction How will the divisions between the Northern and Southern units play out Will they tear the organization apart just when it is becoming a global player Learning Objective To examine the relationship between governance and accountability in a global organization to explore processes of leading and implementing transformational change in global organizations
