Economics Limpopo Grade Paper :

Precambrian Continental Crust and its Economic Resources S.M. Naqvi, 1990-09-06 Since 1964 the time when the Upper Mantle Project was started the Precambrian continental crust has been studied in considerable detail in many areas Multidisciplinary studies using modern tools and techniques have resulted in increasing levels of accuracy The Precambrian continental crust has been subjected to several thermal events and multiple episodes of deformation These events have obliterated the scenario produced by early events and present day efforts are directed towards evaluating the cause effect processes of each event How far back the known geological processes of the Phanerozoic can be extended into the Precambrian is one of the main questions The present volume provides data and interpretations which will help in formulating the answer to some of these questions The book contains 30 contributions resulting from researches on almost all the important Precambrian terranes Grid-locked African Economic Sovereignty Warikandwa, Tapiwa

Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions *Papers and Abstracts of Addresses* J.
