dreams and contradictions inherent in experiencing the Middle Ages in a nation that is so temporally spatially and at times politically removed from them The European Middle Ages have long influenced the national landscape of the United States through the medieval sites that permeate its self announced republican landscapes and cities Today American built medievalisms continue to shape the nation s communities collapsing the binaries between past and present medieval and modern European and American The volume s chapters visit the nation s many medieval inspired spaces from Sherwood Forest in Texas to California s San Andreas Fault Stops are made in New York City s churches Boston s gardens Philadelphia
