combination of the tried and true and the extrasensory perception that is almost a trademark of Alice's cooking. I especially like having the four seasonal sections in which the accent is on what is fresh. Then the fruits and herbs and everything else that goes on the table are of that one special time in the year. M F K Fisher, *Pizza*. What an odd, ordinary thing for one of America's most respected establishments to put on the menu. When the pizza came and I tasted it, I saw what Alice Waters was about: the ordinary made extraordinary by the use of fine, unusual ingredients. In this case, girolles in a general creaminess spiked with a little Parmesan and onion put together by a skillful and unusual taste. Jane Grigson, *The Chez Panisse Menu Cookbook*. Alice Waters, Linda P. Guenzel, Carolyn Dille, 1984. *We Are What We Eat*. Alice Waters, 2022-06-07.

From chef and food activist Alice Waters, an impassioned plea for a radical reconsideration of the way each and every one of us cooks and eats. In *We Are What We Eat*, Alice Waters urges us to take up the mantle of slow food culture, the philosophy at the core of her life's work. When Waters first opened Chez Panisse in 1971, she did so with the intention of feeding people good food during a time of political turmoil. Customers responded to the locally sourced organic ingredients in the dishes made by hand and to the welcoming hospitality that infused the small space with human qualities that were disappearing from a country increasingly seduced by takeout, frozen dinners, and prepackaged ingredients. Waters came to see that the phenomenon of fast food culture, which prioritized cheapness, availability, and speed, was not only ruining our health but also dehumanizing the ways we live and relate to one another. Over years of working with regional farmers, Waters and her partners learned how geography and seasonal fluctuations affect the ingredients on the menu, as well as about the dangers of pesticides, the plight of fieldworkers, and the social, economic, and environmental threats posed by industrial farming and food distribution. So many of the serious problems we face in the world today, from illness to social unrest to economic disparity and environmental degradation, are all at their core connected to food. Fortunately, there is an antidote. Waters argues that by eating in a slow food way, each of us, like the community around her restaurant, can be empowered to prioritize and nurture a different kind of culture, one that champions values such as biodiversity, seasonality, stewardship, and pleasure in work. This is a declaration of action against fast food values and a working theory about what we can do to change the course. As Waters makes clear, every decision we make about what we put in our mouths affects not only our bodies but also the world at large: our families, our communities, and our environment. We have the power to choose what we eat, and we have the potential for individual and global transformation simply by shifting our relationship to food. All it takes is a taste. *Edible Schoolyard*. Alice Waters, 2008-12-17. Offers a look at an organic garden on school grounds which are tended and harvested by students and the benefits that arise from it.
